

RRB NTPC Graduate Level (CBT 1) PYP (18 June, 2025 Shift 3)

- Q1** Privatisation was a key pillar of the New Economic Policy of 1991. Which of the following is NOT a form of privatisation?
 (A) Disinvestment
 (B) Asset monetisation
 (C) Sovereign borrowing
 (D) Strategic sale
- Q2** Mr. Yanki starts from Point A and drives 17 km towards the South. He then takes a right turn, drives 19 km, turns right and drives 29 km. He then takes a right turn and drives 15 km, turns right drives 1 km. He then takes a left turn drives 6 km. He takes a final right turn, drives 11 km and stops at Point P. How far (shortest distance) and towards which direction should he drive in order to reach Point A again? (All turns are 90 degrees turns only unless specified.)
 (A) 4 km to the South
 (B) 2 km to the West
 (C) 6 km to the East
 (D) 8 km to the North
- Q3** India's dependency on food aid reduced after the Green Revolution. Which US program had earlier provided wheat aid to India?
 (A) PL-480 (B) KL-580
 (C) Green Aid (D) Marshall Plan
- Q4** Which of the following numbers is divisible by 87?
 (A) 8004 (B) 8088
 (C) 7150 (D) 7835
- Q5** The sides (in cm) of a right triangle are $(x - 5)$, $(x - 10)$ and x . Its area (in cm^2) is:
 (A) 150 (B) 162
 (C) 158 (D) 163
- Q6** 4 chairs and 14 tables cost ₹4,000 and 16 chairs and 12 tables cost ₹5,000. What is the cost of 8 chairs and 4 tables?
 (A) ₹2,002 (B) ₹1,998
 (C) ₹2,004 (D) ₹2,000
- Q7** Which Indian states are covered under the CITI-CDRA project as of March 2025?
 (A) Odisha, West Bengal, Assam
 (B) Tamil Nadu, Karnataka, Kerala
 (C) Gujarat, Haryana, Punjab
 (D) Rajasthan, Madhya Pradesh, Maharashtra
- Q8** In a class of 30 students, the average score on a test is 75. If 20 students scored an average of 80, what is the average score of the remaining 10 students?
 (A) 65 (B) 70
 (C) 72 (D) 60
- Q9** In March 2025, the Indian Government introduced a ___ incentive scheme for banks to encourage small-value UPI transactions in the financial year 2024-25?
 (A) ₹1,500 crore (B) ₹1,600 crore
 (C) ₹1,700 crore (D) ₹1,800 crore
- Q10** Which of the following films was selected as India's official entry for Oscar 2025?
 (A) Animal
 (B) Laapataa Ladies
 (C) Jawan
 (D) 12th Fail
- Q11** If the third proportional of 81 and Z is 9, then what is the positive value of Z?
 (A) 25 (B) 28
 (C) 27 (D) 30
- Q12** Select the letter-cluster from among the given options that can replace the question mark (?) in the following series.
 RCX TDS VEN XFI ?
 (A) ZHE (B) ZIE
 (C) ZIF (D) ZGD

- Q13** Refer to the following number and symbol series and answer the question that follows. Counting to be done from left to right only.
(NOTE: All numbers are single digit numbers only)
(Left) & # 9 % 6 4 % © @ & 6 4 6 7 © 9 8 5 % 9 © 7 (Right)
How many such numbers are there each of which is immediately preceded by a symbol and also immediately followed by a symbol?
(A) 3 (B) 4
(C) 2 (D) 1
- Q14** India's telecom revolution is a major outcome of liberalisation. Which regulatory authority was established in 1997 to oversee the telecom sector?
(A) TRAI (B) SEBI
(C) NABARD (D) IRDAI
- Q15** L is the mother of two sons, namely, P and J. F is the wife of P. Q is the daughter of J. How is L related to Q?
(A) Husband's mother
(B) Father's mother
(C) Mother's mother
(D) Mother
- Q16** Fenil starts from Point Y and drives 19 km towards the west. He then takes a left turn, drives 49 km, turns left and drives 12 km. He then takes a left turn and drives 28 km. He takes a left turn and drives 38 km. He then turns right and drives 21 km to stop at Point Z. How far (shortest distance) and towards which direction should he drive in order to reach Point Y again? (All turns are 90 degree turns only unless specified.)
(A) 51 km towards the south
(B) 39 km towards the west
(C) 41 km towards the south
(D) 45 km towards the east
- Q17** The average weight of M and his three friends is 65 kg. If M's weight is 8 kg more than the

average weight of his three friends, what is M's weight (in kg)?

- (A) 70 (B) 71
(C) 68 (D) 69

- Q18** In a certain code language, 'FISH' is coded as '6458' and 'HAVE' is coded as '5723'. What is the code for 'H' in the given code language?
(A) 5 (B) 7
(C) 8 (D) 2
- Q19** Select the pair that follows the same pattern as that followed by the two pairs given below. Both pairs follow the same pattern.
HKO : FJM
DPY : BOW
(A) WGO : SCJ (B) BPS : AKI
(C) TRK : RQI (D) BZI : WVD
- Q20** When the difference between compound interest, compounded annually, and simple interest for three years is ₹228 at 4% interest per annum, the principal is ₹ ____
(A) 46,300 (B) 48,075
(C) 47,295 (D) 46,875
- Q21** Which zone of the Great Indian Plains has high humidity and marshy conditions?
(A) Bhangar (B) Bhabar
(C) Delta (D) Terai
- Q22** A sum, when invested at 20% simple interest per annum, amounts to ₹4,800 after 3 years. What is the simple interest (in ₹) on the same sum at the same rate in 1 year?
(A) 2,400 (B) 1,200
(C) 600 (D) 300
- Q23** Read the given statements and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusion(s) logically follow(s) from the statements.
Statements:
All birds are omnivores.
All omnivores are lions.

Some birds are reptiles.

Conclusions:

(I) Some omnivores are reptiles.

(II) Some reptiles are lions.

(A) Both conclusions (I) and (II) follow.

(B) Only conclusion (I) follows.

(C) Only conclusion (II) follows.

(D) Either conclusion (I) or (II) follows.

- Q24** Each of P, Q, R, S, T, U and V has an exam on a different day of a week starting from Monday and ending on Sunday of the same week. No one has the exam before V. Only four people have exams between P and R. Q has the exam immediately before R. T has the exam before U but after S.

How many people have exams between S and R?

(A) Three (B) Four

(C) One (D) Two

- Q25** A salesman marks his good 84% above the cost price and gives a discount of 50% on them. Find the percentage of this gain or loss.

(A) 5% gain (B) 9% loss

(C) 8% loss (D) 6% gain

- Q26** Which of the following statements is NOT correct with reference to the periodic trend of metallic character?

(A) Metallic character decreases across a period from left to right.

(B) Metallic character increases across a period from left to right.

(C) Metallic character increases down a group.

(D) The change from metallic to non-metallic is gradual.

- Q27** Each of P, Q, R, S, T, U and V has an exam on a different day of a week starting from Monday and ending on Sunday of the same week. T has an exam on Friday. Exactly 3 people have an exam between P and U, neither of whom has an exam on Sunday. S has an exam immediately after Q. V has an exam immediately before U. How many people have an exam after S?

(A) 3 (B) 1

(C) 4

(D) 2

- Q28** A, B, C, D, E, F, and G are sitting around a circular table facing the centre. A sits to the immediate left of G. D sits to the immediate left of B. B sits second to the left of F. E sits third to the left of G. How many people sit between C and F when counted from the left of C?

(A) Two

(B) One

(C) Three

(D) Four

- Q29** Who among the following has become the first woman officer to take over as the Director General, Armed Forces Medical Services, in October 2024?

(A) Vijaya Kishore Rahatkar

(B) Deena Mehta

(C) Arti Sarin

(D) Anju Rathie Rana

- Q30** What should come in place of the question mark (?) in the given series?

319, 296, 263, ?, 167, 104

(A) 220

(B) 200

(C) 210

(D) 230

- Q31** What is the median of the following data?

74, 85, 67, 27, 47, 16, 41, 32, 98, 38, 88

(A) 46.5

(B) 47

(C) 47.5

(D) 48

- Q32** If 12, 60, 13, and y are in proportion, then the value of y is:

(A) 63

(B) 65

(C) 72

(D) 56

- Q33** In a certain code language, 'NEAR' is coded as '3571' and 'WINK' is coded as '2346'. What is the code for 'N' in the given code language?

(A) 7

(B) 4

(C) 1

(D) 3

- Q34** Three numbers are in the ratio 3 : 2 : 13, and their LCM is 4758. Their HCF is ____.

(A) 46

(B) 64

(C) 61

(D) 75

- Q35** A bike can finish a certain journey in 20 hours at the speed of 66 km / hr. In order to cover the same distance in 15 hours, the speed of the bike (in km/hr) must be increased by ____ .
 (A) 25 (B) 18
 (C) 14 (D) 22
- Q36** A cube of side 5 cm and a cuboid of measurements 35 cm, 15 cm and 15 cm, respectively, of the same metal are melted and made into cubes of side 10 cm each. The number of cubes of side 10 cm thus formed is:
 (A) 9 (B) 10
 (C) 7 (D) 8
- Q37** What does PCB stand for in electric circuits?
 (A) Printed Circuit Board
 (B) Peripheral Circuit Bridge
 (C) Programmed Control Base
 (D) Process Control Board
- Q38** What will come in the place of the question mark (?) in the following equation, if '+' and '-' are interchanged and 'x' and '÷' are interchanged?
 $117 \div 7 + 426 \times 6 - 66 = ?$
 (A) 811 (B) 804
 (C) 809 (D) 814
- Q39** This question is based on the five, three-digit numbers given below.
 (Left) 853 628 981 217 132 (Right)
 (Example- 697 - First digit = 6, second digit = 9 and third digit = 7)
 (NOTE: All operations to be done from left to right.)
 What will be the resultant if the second digit of the highest number is added to the first digit of the lowest number?
 (A) 12 (B) 9
 (C) 8 (D) 10
- Q40** Which department at the Indian Institute of Science (IISc) led the 2025 research project on synthetic image generation for MR applications?
 (A) Department of Computer Science
 (B) Department of Mechanical Engineering
 (C) Department of Design and Manufacturing
 (D) Department of Artificial Intelligence
- Q41** A person who spends 32% of his monthly income is able to save ₹7,752 per month. His monthly expenses (in ₹) are:
 (A) 3,846 (B) 3,864
 (C) 3,648 (D) 3,684
- Q42** Cardiomyocytes rely heavily on which mechanism to maintain their membrane potential and ensure proper contraction?
 (A) Passive diffusion through gap junctions only
 (B) Endocytosis of extracellular fluid
 (C) Facilitated diffusion of nutrients exclusively
 (D) A combination of voltage-gated ion channels and active ion pumps
- Q43** Find the simplified value of $[525 \div \{19 + 7 \times (3 - 5)\}]$.
 (A) 102 (B) 105
 (C) 108 (D) 104
- Q44** If $\sin A = \frac{3}{4}$, then calculate $\cos A \cot A$.
 (A) $\frac{12}{7}$ (B) $\frac{7}{12}$
 (C) $\frac{6}{7}$ (D) $\frac{7}{6}$
- Q45** The curved surface area of a right circular cone is $4335\pi \text{ cm}^2$, and the diameter of its base is 102 cm. Find the height (in cm) of the cone.
 (A) 68 (B) 64
 (C) 63 (D) 69
- Q46** Find the smallest number by which 4232 must be multiplied to make it a perfect square.
 (A) 23 (B) 3
 (C) 11 (D) 2
- Q47** In which landmark case did the Supreme Court of India rule that the Council of Ministers DOES NOT cease to hold office even after the dissolution of the Lok Sabha?
 (A) Golaknath vs. State of Punjab, 1967
 (B) Kesavananda Bharati vs. State of Kerala, 1973
 (C) UNR Rao vs. Indira Gandhi, 1971
 (D) SR Bommai vs. Union of India, 1994

Q48 Who among the following travelled from Bithoor to Kalpi, Delhi and Lucknow in 1857 to rally the support of native princes for an uprising against the British?

- (A) Bahadur Shah Zafar
- (B) Nana Saheb
- (C) Rani of Jhansi
- (D) Tantia Tope

Q49 If the quadratic equations $6x^2 - 7x - 20 = 0$ and $6x^2 + bx - 10 = 0$ have one root in common, find the value of b.

- (A) -11
- (B) 11
- (C) 10
- (D) -10

Q50 The population of a town in 1968 was 4,85,000. If its population increased in two successive decades by 20% in each decade, the population of the town in 1988 was:

- (A) 6,98,405
- (B) 6,98,395
- (C) 6,98,400
- (D) 6,98,397

Q51 Prime Minister Rajiv Gandhi initiated the Seventh Five-Year Plan (1985–90) in India. Which of the following was a key focus area of the Seventh Five-Year Plan?

- (A) Privatisation
- (B) Liberalisation
- (C) Modernisation and technology upgrade
- (D) Structural reforms

Q52 Which of the following actions will create a new folder on a Windows desktop?

- (A) Clicking on the Recycle Bin icon
- (B) Pressing Alt + Tab
- (C) Pressing Ctrl + F
- (D) Right-clicking on the desktop and selecting 'New' → 'Folder'

Q53 Gaddi Nati is the famous folk dance of which of the following States?

- (A) Uttar Pradesh
- (B) Andhra Pradesh
- (C) Madhya Pradesh
- (D) Himachal Pradesh

Q54

What is the typical direction of jet streams influencing the Indian climate in winter?

- (A) West to east
- (B) Southwest to northeast
- (C) East to west
- (D) Southeast to northwest

Q55 Which of the following letter-number clusters will replace the question mark (?) in the given series to make it logically complete?

KDG19, LEH30, MFI41, NGJ52, ?

- (A) OHL 64
- (B) OHK 64
- (C) OHK 63
- (D) OHL 63

Q56 Which of the following pairs is an acid–base conjugate pair?

- (A) H^+ and O^{2-}
- (B) HCl and Cl_2
- (C) NH_4^+ and NH_3
- (D) H_2O and H_2O_2

Q57 For which of the given bills can the President of India summon a joint sitting of both Houses of Parliament?

1. Ordinary Bill
 2. Money Bill
 3. Constitutional Amendment Bill
- (A) 1, 2 and 3
 - (B) 1 and 2 only
 - (C) 1 only
 - (D) 2 and 3 only

Q58 Which of the following letter-clusters should replace # and % so that the pattern and relationship followed between the letter-cluster pair on the left side of :: is the same as that on the right side of :: ?

- # : IKO :: TVZ : %
- (A) # = EGK, % = XZD
 - (B) # = FGK, % = XZD
 - (C) # = ELK, % = XZD
 - (D) # = EGK, % = YZD

Q59 What happens if a no-confidence motion is passed in the Indian Lok Sabha against the Union Government?

- (A) The entire Council of Ministers must resign.
- (B)

The Prime Minister is given a chance to reorganise the Cabinet.

(C) Only the dissenting ministers resign.

(D) A re-election is triggered.

Q60 In a certain code language, 'BEAR' is coded as '4567' and 'RUIN' is coded as '1234'. What is the code for 'R' in the given code language?

(A) 4

(B) 7

(C) 2

(D) 1

Q61 In April 2025, India implemented a standardised curriculum in Himalayan Buddhist monasteries.

What was the primary objective of this initiative?

(A) To convert monasteries into secular schools

(B) To reduce the number of monasteries in border areas

(C) To promote Chinese language education

(D) To integrate modern subjects alongside traditional teachings

Q62 In MS PowerPoint, what is the significance of the aspect ratio setting (e.g., 16:9, 4:3) when you are setting up your slide size?

(A) It controls the number of slides that can be included in the presentation.

(B) It defines the proportions of the slide displayed on the screen, influencing how the content is laid out and how it appears on different display devices.

(C) It sets the default font size and style for all text boxes in the presentation.

(D) It determines the file size of the saved presentation.

Q63 Which of the following memory types is also called solid-state storage?

(A) Crystal Storage

(B) Primary Memory

(C) Cache Memory

(D) Flash Memory

Q64 What does 'Dhamma' primarily refer to in Ashoka's inscriptions?

(A) Buddhist doctrine

(B) Royal decree

(C) Slogans of Buddha

(D) Moral law

Q65 Which irrigation system is commonly used in arid regions of India to conserve water by directly delivering irrigation water to the roots of plants?

(A) Tank irrigation

(B) Drip irrigation

(C) Sprinkler irrigation

(D) Canal irrigation

Q66 3 men and 14 women can complete a piece of work in 18 days, and 11 men and 8 women can complete the same work in 12 days. The work of how many women is equivalent to that of one man?

(A) 5

(B) 2

(C) 3

(D) 4

Q67 What was the theme of the World Sustainable Development Summit 2025?

(A) Partnership for Accessing Sustainable Development and Climate Solutions

(B) Partnership for Approaching Sustainable Development and Climate Change

(C) Partnership for Accelerating Sustainable Development and Climate Solutions

(D) Partnerships for Accessing Supportive Development and Climate Solutions

Q68 What is the median of the following distribution?

Class	140-190	190-240	240-290	290-340	340-390
Frequency	14	37	28	39	12

(A) 265

(B) 251

(C) 275

(D) 250

Q69 Which city did PM Modi and President Macron visit to inaugurate a new Indian consulate in February 2025?

(A) Baku

(B) Marseille

(C) Lyon

(D) Toulouse

Q70 In which early INC session was the demand first raised for the Indianisation of the higher administrative services, including the civil services?

(A) Calcutta Session, 1886

- (B) Bombay Session, 1885
 (C) Allahabad Session, 1890
 (D) Madras Session, 1887

Q71 What will come in the place of the question mark (?) in the following equation, if '+' is replaced by '-' and 'x' and '÷' are interchanged?

$$44 \div 8 + 5 \times 1 + 7 = ?$$

- (A) 340 (B) 300
 (C) 400 (D) 250

Q72 Which feature allows you to create a multi-level numbered list (e.g., 1.1, 1.2) in MS Word 2019?

- (A) Define New Multilevel List
 (B) Format Painter
 (C) Change Styles option
 (D) Increase Indent button

Q73 In March 2025, Ordnance Factories Day was observed to commemorate the founding of India's first ordnance factory in ____.

- (A) Hyderabad (B) Jabalpur
 (C) Pune (D) Cossipore

Q74 The farming system that involves both crop cultivation and livestock raising is known as:

- (A) Plantation farming
 (B) Terrace agriculture
 (C) Subsistence farming
 (D) Mixed farming

Q75 If 2 is added to each odd digit and 1 is subtracted from each even digit in the number 5634812, how many digits will appear more than once in the new number thus formed?

- (A) 1 (B) 3
 (C) 2 (D) 0

Q76 $TQ = 6$ cm is a tangent to the circle and TPX is a secant. If $TP = y$ cm and $PX = 5$ cm, find y .

- (A) 4 (B) 6
 (C) 5 (D) 3

Q77 Seven boxes, A, B, C, D, E, F and G, are kept one over the other, but not necessarily in the same order. Only four boxes are kept between C and D.

Only E is kept above C. Only two boxes are kept between F and A. G is kept immediately above B. A is not kept immediately above G. How many boxes are kept above F?

- (A) 4 (B) 1
 (C) 2 (D) 3

Q78 Which of the following novels, published in 1961, was written by Attia Hosain and portrays the impact of the Partition on a feudal family?

- (A) Midnight's Children
 (B) Clear Light of Day
 (C) Sunlight on the Broken Column
 (D) Ice Candy Man

Q79 GF 7 is related to EA -10 in a certain way. In the same way, UG 14 is related to SB -3. To which of the given options is LN 2 related, following the same logic?

- (A) II-13 (B) JJ -14
 (C) IJ -15 (D) JI-15

Q80 Following the 2024 Jammu & Kashmir Assembly elections, who was appointed as the Deputy Chief Minister, and which political party does he represent?

- (A) Ghulam Ahmad Mir, Indian National Congress (INC)
 (B) Surinder Kumar Choudhary, Indian National Congress (INC)
 (C) Ravinder Raina, Bharatiya Janata Party (BJP)
 (D) Surinder Kumar Choudhary, Jammu & Kashmir National Conference (JKNC)

Q81 Which Union Territory was added to India by the Fourteenth Amendment Act, 1962?

- (A) Puducherry (B) Lakshadweep
 (C) Daman and Diu (D) Goa

Q82 If the manufacturer gains 10%, the wholesale gains 16% and the retailer gains 25%, then find the cost of production of a table (in ₹), whose retail price for the customer is ₹63,800. (NOTE: Manufacturer sells to wholesaler, wholesaler sells to retailer and retailer sells to customer.)

- (A) 40,000 (B) 50,000
(C) 44,000 (D) 46,400

Q83 Based on the English alphabetical order, three of the following four letter-cluster pairs are alike in a certain way and thus form a group. Which letter-cluster pair DOES NOT belong to that group?

(Note: The odd one out is not based on the number of consonants/vowels or their position in the letter-cluster.)

- (A) VP - DX (B) ZT - HB
(C) DX - LE (D) HB - PJ

Q84 A and B can do a piece of work in 13 days and 52 days, respectively. Both work for 2 days and then A goes away. How long (in days) will B take to complete the remaining work?

- (A) 42 (B) 44
(C) 43 (D) 41

Q85 A man has to cover a distance of 549 km in 8 hours. If he covers $\frac{2}{3}$ of this distance in $\frac{3}{4}$ of the time, then what should be his speed (in km/hr) to cover the remaining distance in the time left?

- (A) 91.5 (B) 96.5
(C) 71.5 (D) 82.5

Q86 An article's cost price is ₹285, and the marked price is mentioned as ₹1,140. What is the profit percentage of the seller if he sells it by allowing a discount of 70% on the marked price?

- (A) 17 % (B) 19%
(C) 23% (D) 20%

Q87 This question is based on the five, three-digit numbers given below.

(Left) 441 317 999 155 444 (Right)

(Example- 697 - First digit = 6, second digit = 9 and third digit = 7)

(NOTE: All operations to be done from left to right.)

What will be the resultant if the third digit of the highest number is subtracted from the first digit of the lowest number?

- (A) -8 (B) -9

- (C) -5 (D) -7

Q88 LIQM is related to JGOK in a certain way based on the English alphabetical order. In the same way, IFNJ is related to GDLH. To which of the given options is OLTP related, following the same logic?

- (A) JMRN (B) JMNR
(C) MJNR (D) MJRN

Q89 The length, breadth and height of a cuboid are $(2x - 5y + 3)m$, $(5x + 7y - 7)m$ and $(x + y + 3)m$, respectively. Find the perimeter of the cuboid.

- (A) $(32x + 12y + 4)m$
(B) $(32x + 12y - 4)m$
(C) $(16x - 12y + 8)m$
(D) $(16x - 12y - 8)m$

Q90 A, B, C, D, R, S and T are sitting around a circular table facing the centre of the table. Only one person sits between T and S when counted from the right of T. Only one person sits between S and C. Only one person sits between T and R. Only two people sit between A and C. Only one person sits between B and R. Who sits third to the right of D?

- (A) C (B) A
(C) T (D) S

Q91 The royal title used by Chandragupta I was:

- (A) Chakravartin
(B) Maharajadhiraja
(C) Samrat
(D) Maharaj

Q92 What will come in place of the question mark (?) in the following equation if ' $\div$ ' and ' $-$ ' are interchanged and ' $\times$ ' and ' $+$ ' are interchanged?
 $522 \times 708 - 59 + 19 \div 17 = ?$

- (A) 733 (B) 567
(C) 379 (D) 768

Q93 If $a^2 + b^2 = 163$, $a \times b = 27$ and $a > b$, then find the value of $\frac{a-b}{a+b}$.

- (A) $\sqrt{\frac{109}{217}}$ (B) $\frac{109}{217}$

(C) $\sqrt{\frac{119}{227}}$

(D) $\frac{119}{227}$

Q94 Based on the English alphabetical order, three of the following four letter-clusters are alike in a certain way and thus form a group. Which letter-cluster DOES NOT belong to that group?

(Note: The odd one out is not based on the number of consonants/vowels or their position in the letter-cluster.)

- (A) NJGB (B) TPMH
(C) AWTO (D) EAYS

Q95 Which two policy areas are explicitly managed by the Union Cabinet in India as part of its coordinating functions?

- (A) Agriculture and Labour
(B) Tourism and Sports
(C) Education and Health
(D) Foreign Relations and Defence

Q96 Which international event focused on climate change was held in Baku, Azerbaijan, in November 2024?

- (A) COP28
(B) Earth Summit 2024
(C) COP29
(D) Global Climate Forum

Q97 What should come in place of the question mark (?) in the given series?

12, 29, 63, 131, 267, ?

- (A) 531 (B) 543
(C) 521 (D) 539

Q98 Which of the following statements regarding the 2024 Haryana Assembly elections are correct?

1. The BJP formed the government for a third consecutive term in Haryana.
2. The Indian National Lok Dal (INLD) secured 2 seats in the election.
3. Independent candidates secured more than 5 seats in the assembly.
4. The majority mark in the Haryana Legislative Assembly was 48 seats.

- (A) Only 1 and 3

(B) Only 1, 2 and 4

(C) Only 1 and 2

(D) Only 2 and 3

Q99 Which institution was established in 1921 as a deliberative body for princes?

- (A) Indian Council
(B) Royal Consultation Board
(C) Imperial Assembly
(D) Chamber of Princes

Q100 Select the set in which the numbers are related in the same way as are the numbers of the following sets.

(NOTE: Operations should be performed on the whole numbers, without breaking down the numbers into their constituent digits. E.g. 13 - Operations on 13 such as adding to/subtracting from/multiplying with 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

(88, 76, 64)

(71, 59, 47)

(A) (40, 38, 36)

(B) (64, 52, 40)

(C) (99, 77, 55)

(D) (58, 46, 24)

Hints & Solutions

Q1 Text Solution:

- The New Economic Policy (1991) introduced reforms based on Liberalisation, Privatisation and Globalisation (LPG).
- Disinvestment involves selling a portion of government shares in public sector enterprises.
- Strategic sale refers to transferring ownership and management control of a public enterprise to a private entity.
- Asset monetisation means generating revenue by leasing or selling underutilised public assets to private players.
- Sovereign borrowing is when the government raises funds by borrowing from domestic or international markets; it does not involve transfer of ownership to private entities.

Hence, the correct answer is "Sovereign borrowing".

Q2 Text Solution:

According to the given information, draw a diagram:

Distance from P to A = $(15 + 6 - 19) = 21 - 19 = 2\text{km}$.
Now he need to travel 2km in west direction to reach at point A.
Hence, 2 km to the West is the correct answer.

Q3 Text Solution:

- Before the Green Revolution, India faced severe food shortages and relied on wheat imports.
- The United States supplied wheat to India under the Public Law 480 (PL-480) program.
- PL-480 was also known as the Food for Peace Program, launched in 1954.
- It allowed surplus US agricultural produce to be exported to developing countries on concessional terms.
- India was one of the largest beneficiaries of PL-480 wheat shipments during the 1950s and 1960s.
- After the success of the Green Revolution, India significantly reduced its dependence on food aid.

Hence, the correct answer is "PL-480".

Q4 Text Solution:

Check divisibility by 87:

$$1) 7221 \div 87:$$

$$\Rightarrow 7221 \div 87 = 83$$

$$\Rightarrow \text{Remainder} = 0$$

$$2) 7099 \div 87:$$

$$\Rightarrow 7099 \div 87 = 81$$

$$\Rightarrow \text{Remainder} = 2$$

$$3) 6712 \div 87:$$

$$\Rightarrow 6712 \div 87 = 77$$

$$\Rightarrow \text{Remainder} = 61$$

$$4) 7741 \div 87:$$

$$\Rightarrow 7741 \div 87 = 89$$

$$\Rightarrow \text{Remainder} = 28$$

Hence, Option A is the correct answer.

Q5 Text Solution:

$$x^2 = (x - 5)^2 + (x - 10)^2$$

$$\Rightarrow x^2 = (x^2 - 10x + 25) + (x^2 - 20x + 100)$$

$$\Rightarrow x^2 = 2x^2 - 30x + 125$$

$$\Rightarrow 0 = x^2 - 30x + 125$$

$$\Rightarrow x^2 - 5x - 25x + 125 = 0$$

$$\Rightarrow x(x - 5) - 25(x - 5) = 0$$

$$\Rightarrow (x - 5)(x - 25) = 0$$

So, $x = 25$ (taking the positive value, as length cannot be negative).

Base = $x - 10 = 25 - 10 = 15$ cm

Height = $x - 5 = 25 - 5 = 20$ cm

Area = $\frac{1}{2} \times \text{Base} \times \text{Height}$

$\Rightarrow \text{Area} = \frac{1}{2} \times 15 \times 20$

$\Rightarrow \text{Area} = 150 \text{ cm}^2$

Hence, Option A is the correct answer.

Q6 Text Solution:

Let 1 chair = x and 1 table = y

$4x + 14y = 4000 \Rightarrow \text{Multiply (1) by 4} \Rightarrow 16x + 56y = 16000 \dots(1)$

$16x + 12y = 5000 \dots(2)$

$\Rightarrow \text{Subtract (2) from (1)} \Rightarrow (16x + 56y) - (16x + 12y) = 16000 - 5000$

$\Rightarrow 44y = 11000$

$\Rightarrow y = 250$

$\Rightarrow \text{From (1): } 4x + 14 \times 250 = 4000$

$\Rightarrow 4x + 3500 = 4000$

$\Rightarrow 4x = 500$

$\Rightarrow x = 125$

$\Rightarrow 8 \text{ chairs} + 4 \text{ tables} = 8 \times 125 + 4 \times 250$

$\Rightarrow 1000 + 1000 = 2000$

Hence, Option D is the correct answer.

Q7 Text Solution:

- The CITI-CDRA project is implemented to promote cotton development and sustainable agricultural practices in selected states.
- As of March 2025, the project is active in Rajasthan, Madhya Pradesh, and Maharashtra.
- These states are among the major cotton-producing regions of India.
- The project focuses on improving cotton productivity, sustainability, and farmer outreach programmes.
- It also supports better farming techniques and value-chain development in the textile sector.
- The other states mentioned in the options are not covered under the project as of the given date.

Hence, the correct answer is "Rajasthan, Madhya Pradesh, Maharashtra."

Q8 Text Solution:

Total score of all students = 30×75

$\Rightarrow \text{Total score of all students} = 2250$

Total score of 20 students = 20×80

$\Rightarrow \text{Total score of 20 students} = 1600$

Total score of remaining 10 students = Total score of all students - Total score of 20 students

$\Rightarrow \text{Total score of remaining 10 students} = 2250 - 1600$

$\Rightarrow \text{Total score of remaining 10 students} = 650$

Remaining students' average score = Total score of remaining 10 students $\div$ Number of remaining students

$\Rightarrow \text{Remaining students' average score} = 650 \div 10$

$\Rightarrow \text{Remaining students' average score} = 65$

Q9 Text Solution:

- In March 2025, the Government of India approved an incentive scheme to promote small-value BHIM-UPI (Person-to-Merchant) transactions for the financial year 2024-25.
- The scheme is aimed at encouraging banks and other payment participants to focus on UPI payments of up to ₹2,000 made to small merchants.
- Under the initiative, participating banks receive an incentive of 0.15% per eligible UPI transaction to boost digital payment adoption.
- The move is part of efforts to strengthen India's digital payments ecosystem, reduce cash dependency, and enhance financial inclusion.
- The total approved outlay by the Union Cabinet for this scheme in FY 2024-25 was ₹1,500 crore.

Hence, the correct answer is "₹1,500 crore."

Q10 Text Solution:

- Laapataa Ladies was selected as India's official entry for the Academy Awards (Oscars) 2025.
- The film was chosen by the Film Federation of India for the Best International Feature Film category.

- It is directed by Kiran Rao and received critical appreciation for its storytelling and social message.
- The selection highlights India's strong presence in global cinema platforms.
- Other films listed in the options were popular releases but were not chosen as the official entry.

Hence, the correct answer is "Laapataa Ladies".

Q11 Text Solution:

Here, $A = 81$, $B = Z$, and $C = 9$.

From the formula:

$$\Rightarrow Z^2 = 81 \times 9$$

$$\Rightarrow Z^2 = 729$$

$$\Rightarrow Z = \sqrt{729}$$

$$\Rightarrow Z = 27$$

Hence, Option C is the correct answer.

Q12 Text Solution:

The given letter series is:

RCX TDS VEN XFI ?

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

Here, the logic is as follows:

Hence, ZGD is the correct answer.

Q13 Text Solution:

The given series is:

(Left) & # 9 % 6 4 % © @ & 6 4 6 7 © 9 8 5 % 9 © 7 (Right)

Now we have to find total number which is immediately preceded by a symbol and also immediately followed by a symbol.

(Left) & # 9 % 6 4 % © @ & 6 4 6 7 © 9 8 5 % 9 © 7 (Right)

There are two number which is immediately preceded by a symbol and also immediately followed by a symbol.

Hence, 2 is the correct answer.

Q14 Text Solution:

- The Telecom Regulatory Authority of India (TRAI) was established in 1997.
- It was created to regulate the telecommunications sector in India after liberalisation reforms.
- TRAI ensures fair competition, protects consumer interests, and promotes efficient telecom services.
- The authority plays a key role in tariff regulation, spectrum management recommendations, and quality standards.
- The telecom revolution in India, including affordable mobile and internet services, has been supported by regulatory reforms under TRAI.

Hence, the correct answer is "TRAI".

Q15 Text Solution:

Representation is:

Symbol in Diagram	Meaning
- / O	Female
+ / □	Male
=	Married Couple
—	Siblings
T	Difference Of Generation

According to the given information, Family trees:

As we can see from family trees J is the father of Q and L is the mother of J therefore we can say that L will be Father's mother of Q.
Hence, Father's mother is the correct answer.

Q16 Text Solution:

According to the given information, draw a diagram:

Hence, 45 km towards the east is the correct answer.

Q17 Text Solution:

Total weight of M and his three friends = 65×4
 $\Rightarrow$ Total weight = 260 kg
 Let the average weight of M's three friends = x
 M's weight = $x + 8$
 Total weight = $x + x + x + (x + 8)$
 $\Rightarrow 260 = 4x + 8$
 $\Rightarrow 260 - 8 = 4x$
 $\Rightarrow 252 = 4x$
 $\Rightarrow x = 252 \div 4$
 $\Rightarrow x = 63$

M's weight = $x + 8$
 $\Rightarrow$ M's weight = $63 + 8$
 $\Rightarrow$ M's weight = 71 kg

Q18 Text Solution:

Here, the logic is as follows:

F I S **H** $\rightarrow$ 6 4 **5** 8

H A V E $\rightarrow$ **5** 7 2 3

The code of 'H' = '5'

Hence, 5 is the correct answer.

Q19 Text Solution:

Here, the logic is as follows:

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

HKO : FJM

and,

DPY : BOW

Similarly,

The same logic is followed in option(C)

TRK: RQI

Hence, TRK: RQI is the correct answer.

Q20 Text Solution:

Difference between CI and SI for 3 years = ₹228

Rate of interest (r) = 4% per annum

Time (t) = 3 years

Difference between CI and SI for 3 years = $P \times (r/100)^2 \times (3 + r/100)$

Where P is the principal.

Substituting the given values in the formula:

$$228 = P \times (4/100)^2 \times (3 + 4/100)$$

$$228 = P \times (0.04)^2 \times (3 + 0.04)$$

$$228 = P \times 0.0016 \times 3.04$$

$$P = 228 / (0.0016 \times 3.04)$$

$$P = 46875$$

Q21 Text Solution:

- The **Terai** region lies south of the Bhabar zone along the foothills of the Himalayas.
- It is characterized by **high humidity, dense forests, and marshy land**.
- The rivers emerging from the Bhabar reappear in the Terai, leading to waterlogged conditions.
- The area is rich in biodiversity and fertile soil.
- In contrast, Bhabar is a dry, porous belt, and Bhangar is an older alluvial plain.

Hence, the correct answer is "Terai".

Q22 Text Solution:

From the formula, $A = P + SI$

$$\Rightarrow SI = P \times R \times t / 100$$

$$\Rightarrow A = P + P \times R \times t / 100$$

$$\Rightarrow ₹4,800 = P + P \times 20 \times 3 / 100$$

$$\Rightarrow ₹4,800 = P + 60P / 100$$

$$\Rightarrow ₹4,800 = P + 0.6P$$

$$\Rightarrow ₹4,800 = 1.6P$$

$$\Rightarrow P = 4800 / 1.6$$

$$\Rightarrow P = ₹3,000$$

Now, calculate the Simple Interest for 1 year:

$$SI \text{ (for 1 year)} = P \times R \times t / 100$$

$$\Rightarrow SI = 3000 \times 20 \times 1 / 100$$

$$\Rightarrow SI = ₹600$$

Hence, Option C is the correct answer.

Q23 Text Solution:

According to the given statement, the possible venn diagram is as:

Now from the conclusion,

(I) Some omnivores are reptiles. → True [It is a definite conclusion, as we can see from venn diagram some part of omnivores are comes under the part of reptiles.]

(II) Some reptiles are lions. → True [It is a definite conclusion, as we can see from venn diagram some part of reptiles are comes under the part of lions.]

Hence, Both conclusions (I) and (II) follow is the correct answer.

Q24 Text Solution:

According to the given information,

No one has the exam before V.

Only four people have exams between P and R.

Q has the exam immediately before R.

T has the exam before U but after S.

Day	Person
Monday	V
Tuesday	P
Wednesday	S
Thursday	T
Friday	U
Saturday	Q
Sunday	R

As we can see from final arrangement there are three people have exams between S and R.
Hence, Three is the correct answer.

Q25 Text Solution:

Let Cost Price (CP) = ₹100

Marked Price (MP) = CP + 84% of CP

⇒ MP = ₹100 + ₹84

⇒ MP = ₹184

SP = MP × (1 - Discount Percentage)

⇒ SP = ₹184 × (1 - 50/100)

⇒ SP = ₹184 × 0.5

⇒ SP = ₹92

Percentage Gain/Loss = (SP - CP) / CP × 100

⇒ Percentage Gain/Loss = (92 - 100) / 100 × 100

⇒ Percentage Gain/Loss = -8 / 100 × 100

⇒ Percentage Gain/Loss = -8%

Q26 Text Solution:

- Metallic character refers to the tendency of an element to lose electrons and form positive ions.
- Across a period from left to right, effective nuclear charge increases, so atoms hold electrons more strongly.
- Therefore, metallic character decreases from left to right across a period.
- Down a group, atomic size increases and electrons are lost more easily, so metallic character increases.
- The transition from metallic to non-metallic character across a period is generally gradual.

Hence, the correct answer is "Metallic character increases across a period from left to right."

Q27 Text Solution:

According to the given information,

T has an exam on Friday.

Exactly 3 people have an exam between P and U, neither of whom has an exam on Sunday.

S has an exam immediately after Q.

V has an exam immediately before U.

Day	Person
Monday	V
Tuesday	U
Wednesday	Q
Thursday	S
Friday	T
Saturday	P
Sunday	R

As we can see from final arrangement, there are three people have an exam after S.
Hence, 3 is the correct answer.

Q28 Text Solution:

According to the given information,

A sits to the immediate left of G.

D sits to the immediate left of B.

B sits second to the left of F.

E sits third to the left of G.

As we can see from final arrangement, there are two many people sit between C and F when counted from the left of C.
Hence, Two is the correct answer.

Q29 Text Solution:

- Arti Sarin became the first woman to assume the post of Director General, Armed Forces Medical Services (DGAfMS) in October 2024.
- She is a senior officer of the Indian Armed Forces Medical Services.
- Her appointment marks a historic milestone for women in the Indian defence services.
- The DGAfMS heads the medical services of the Army, Navy, and Air Force.
- This achievement reflects the increasing role of women in leadership positions within the armed forces.

Hence, the correct answer is "Arti Sarin".

Q30 Text Solution:

The given series is:

319, 296, 263, ?, 167, 104

Here, the logic is as follows:

Hence, 220 is the correct answer.

Q31 Text Solution:

Arrange the data in ascending order:

16, 27, 32, 38, 41, 47, 67, 74, 85, 88, 98

Total observations = 11 (odd number)

Step 3: Find the middle value:

⇒ Median = Middle value of the ordered data =

6th value in the ordered list

⇒ Median = 47

Q32 Text Solution:

$$12 / 60 = 13 / y$$

$$\Rightarrow 12 / 60 = 13 / y$$

$$\Rightarrow y = 13 \times 60 / 12$$

$$\Rightarrow y = 780 / 12$$

$$\Rightarrow y = 65$$

Hence, Option B is the correct answer.

Q33 Text Solution:

Here, the logic is as follows:

N E A R → **3** 5 7 1

W I **N** K → 2 **3** 4 6

The code of 'N' = '3'

Hence, 3 is the correct answer.

Q34 Text Solution:

Let HCF = d ⇒ numbers = 3d, 2d, 13d

If numbers are in lowest ratio, LCM = d × 3 × 2 × 13

Calculation:

$$\Rightarrow 4758 = d \times 78$$

$$\Rightarrow d = 4758 \div 78$$

$$\Rightarrow d = 61$$

Hence, Option C is the correct answer.

Q35 Text Solution:

$$\text{Distance} = s_1 \times t_1$$

$$\Rightarrow \text{Distance} = 66 \times 20$$

$$\Rightarrow \text{Distance} = 1320 \text{ km}$$

To cover the same distance in 15 hours:

$$\Rightarrow \text{Distance} = s_2 \times t_2$$

$$\Rightarrow 1320 = s_2 \times 15$$

$$\Rightarrow s_2 = 1320 \div 15$$

$$\Rightarrow s_2 = 88 \text{ km/hr}$$

$$\text{Increase in speed} = s_2 - s_1$$

$$\Rightarrow \text{Increase} = 88 - 66$$

$$\Rightarrow \text{Increase} = 22 \text{ km/hr}$$

Q36 Text Solution:

$$\text{Volume of cube 1} = 5^3$$

$$\Rightarrow \text{Volume of cube 1} = 125 \text{ cm}^3$$

$$\text{Volume of cuboid} = 35 \times 15 \times 15$$

$$\Rightarrow \text{Volume of cuboid} = 7875 \text{ cm}^3$$

Total volume = Volume of cube 1 + Volume of cuboid

$$\Rightarrow \text{Total volume} = 125 + 7875$$

$$\Rightarrow \text{Total volume} = 8000 \text{ cm}^3$$

$$\text{Volume of one cube (side 10 cm)} = 10^3$$

$$\Rightarrow \text{Volume of one cube} = 1000 \text{ cm}^3$$

Number of cubes = Total volume / Volume of one cube

$$\Rightarrow \text{Number of cubes} = 8000 / 1000$$

$$\Rightarrow \text{Number of cubes} = 8$$

Q37 Text Solution:

- PCB stands for Printed Circuit Board.
- It is a flat board used to mechanically support and electrically connect electronic components.
- Conductive pathways are printed or etched onto the board using copper sheets.
- PCBs are widely used in devices like computers, televisions, mobile phones, and other electronic equipment.
- They help in organizing complex circuits compactly and efficiently.

Hence, the correct answer is "Printed Circuit Board".

Q38 Text Solution:

The given equation is:

$$117 \div 7 + 426 \times 6 - 66 = ?$$

After interchanging the sign the new equation becomes:

$$117 \times 7 - 426 \div 6 + 66 = ?$$

Now from the BODMAS rule,

B	कोष्ठक (Bracket)
O	का (Of) या घातांक (Order)
D	भाग (Division)
M	गुणा (Multiplication)
A	योग (Addition)
S	अन्तर (Subtraction)

$$117 \times 7 - 426 \div 6 + 66 = ?$$

$$117 \times 7 - 71 + 66 = ?$$

$$819 - 71 + 66 = ?$$

$$885 - 71 = ?$$

$$? = 814$$

Hence, 814 is the correct answer.

Q39 Text Solution:

Given numbers:

853, 628, 981, 217, 132

Step 1: Identify the highest and lowest numbers

Highest number = 981

Lowest number = 132

Step 2: Take the required digits

Second digit of 981 $\rightarrow$ 8

First digit of 132 $\rightarrow$ 1

Step 3: Add them

$$8 + 1 = 9$$

Hence, 9 is the correct answer.

Q40 Text Solution:

- In 2025, researchers at the **Indian Institute of Science (IISc)** carried out an important project on **synthetic image generation for Mixed Reality (MR) applications**.
- The project focused on generating artificial images to enhance MR systems without relying heavily on large real-world datasets.
- The research initiative was led by the **Department of Design and Manufacturing** at IISc.
- This department works on innovative engineering solutions that combine **design thinking with advanced technological tools**.
- Although AI-based techniques may be involved, the leadership of this particular project was under the Design and Manufacturing department.

Hence, the correct answer is "Department of Design and Manufacturing".

Q41 Text Solution:

Total Income = Savings + Expenses

$$\Rightarrow x = 7752 + (32\% \text{ of } x)$$

$$\Rightarrow x = 7752 + (32/100) \times x$$

$$\Rightarrow x - (32/100) \times x = 7752$$

$$\Rightarrow x(1 - 0.32) = 7752$$

$$\Rightarrow 0.68x = 7752$$

$$\Rightarrow x = 7752 / 0.68$$

$$\Rightarrow x = 11400$$

Monthly Expenses = 32% of Monthly Income

$$\Rightarrow \text{Expenses} = (32/100) \times 11400$$

$$\Rightarrow \text{Expenses} = 3648$$

Q42 Text Solution:

- Cardiomyocytes (heart muscle cells) maintain their resting membrane potential mainly through the action of ion gradients across the cell membrane.
- Voltage-gated ion channels (Na^+ , K^+ , and Ca^{2+} channels) are responsible for generating and propagating the cardiac action potential.
- The Na^+/K^+ ATPase pump actively transports ions against their concentration gradient, maintaining ionic balance.
- Calcium ions (Ca^{2+}) entering through voltage-gated channels trigger excitation-contraction coupling, leading to heart muscle contraction.
- Passive diffusion or endocytosis alone cannot maintain the precise electrical activity required for rhythmic cardiac function.

Hence, the correct answer is "A combination of voltage-gated ion channels and active ion pumps".

Q43 Text Solution:

$$\begin{aligned} & [525 \div \{19 + 7 \times (3 - 5)\}] \\ \Rightarrow & [525 \div \{19 + 7 \times (-2)\}] \\ \Rightarrow & [525 \div \{19 - 14\}] \\ \Rightarrow & [525 \div 5] \\ \Rightarrow & 105 \end{aligned}$$

Hence, Option B is the correct answer.

Q44 Text Solution:

$$\begin{aligned} \sin A &= 3/4 \\ \Rightarrow \sin^2 A &= (3/4)^2 = 9/16 \\ \Rightarrow \sin^2 A + \cos^2 A &= 1 \\ \Rightarrow 9/16 + \cos^2 A &= 1 \\ \Rightarrow \cos^2 A &= 1 - 9/16 = 7/16 \\ \Rightarrow \cos A &= \sqrt{7/16} = \sqrt{7}/4 \\ \cot A &= \cos A / \sin A \\ \Rightarrow \cot A &= (\sqrt{7}/4) / (3/4) = \sqrt{7}/3 \\ \cos A \times \cot A &= \cos^2 A / \sin A \\ \Rightarrow \cos A \times \cot A &= (\sqrt{7}/4) \times (\sqrt{7}/3) = 7/12 \end{aligned}$$

Q45 Text Solution:

Curved surface area of cone = $4335\pi \text{ cm}^2$
Diameter of base = 102 cm

Radius of base (r) = Diameter $\div 2 = 102 \div 2 = 51$ cm

Formula used:

Curved Surface Area (CSA) of cone = $\pi \times r \times l$

Where, l = slant height

And, $l = \sqrt{r^2 + h^2}$

Calculation:

$$4335\pi = \pi \times 51 \times l$$

$$\Rightarrow l = 4335 \div 51$$

$$\Rightarrow l = 85 \text{ cm}$$

$$\text{Now, } l = \sqrt{r^2 + h^2}$$

$$\Rightarrow 85 = \sqrt{51^2 + h^2}$$

$$\Rightarrow 85^2 = 51^2 + h^2$$

$$\Rightarrow 7225 = 2601 + h^2$$

$$\Rightarrow h^2 = 7225 - 2601$$

$$\Rightarrow h^2 = 4624$$

$$\Rightarrow h = \sqrt{4624}$$

$$\Rightarrow h = 68 \text{ cm}$$

Q46 Text Solution:

Prime factorization of 4232:

$$4232 = 2 \times 2 \times 2 \times 529$$

$$529 = 23 \times 23$$

$$\Rightarrow 4232 = 2^3 \times 23^2$$

To make 4232 a perfect square:

We need to multiply by 2 (to make 2^3 into 2^4 , which is even).

$\therefore$ Smallest number = 2

Q47 Text Solution:

- In **UNR Rao vs. Indira Gandhi**, the Supreme Court clarified the position of the Council of Ministers after the dissolution of the Lok Sabha.
- The Court held that the **Council of Ministers does not automatically cease to exist** when the Lok Sabha is dissolved.
- It stated that the Council continues to function to aid and advise the President under Article 74 of the Constitution.
- This ensures continuity in governance even during the interim period before the formation of a new Lok Sabha.
- The judgment strengthened the principle of **parliamentary form of government** in

India.

Hence, the correct answer is "UNR Rao vs. Indira Gandhi, 1971".

Q48 Text Solution:

- Nana Saheb was a prominent leader of the Revolt of 1857.
- He travelled from **Bithoor to Kalpi, Delhi, and Lucknow** to gather support from Indian rulers against British rule.
- Nana Saheb played a major role in the uprising at **Kanpur (Cawnpore)**.
- He sought to unite native princes to strengthen the resistance movement.
- The Revolt of 1857 marked the first large-scale struggle against British authority in India.

Hence, the correct answer is "Nana Saheb".

Q49 Text Solution:

$$\text{Equation 1: } 6x^2 - 7x - 20 = 0$$

$$\text{Factorization: } 6x^2 - 15x + 8x - 20 = 0$$

$$\Rightarrow 3x(2x - 5) + 4(2x - 5) = 0$$

$$\Rightarrow (2x - 5)(3x + 4) = 0$$

$$\Rightarrow \text{Roots: } x = 5/2, x = -4/3$$

$$\text{Let common root} = \alpha \Rightarrow \alpha = 5/2 \text{ or } -4/3$$

$$\text{Equation 2: } 6x^2 + bx - 10 = 0$$

$$\text{Check } \alpha = 5/2: 6(25/4) + b(5/2) - 10 = 0$$

$$\Rightarrow 150/4 + 5b/2 - 10 = 0$$

$$\Rightarrow 37.5 + 2.5b - 10 = 0$$

$$\Rightarrow 27.5 + 2.5b = 0$$

$$\Rightarrow b = -27.5 \div 2.5 = -11$$

$$\text{Check } \alpha = -4/3: 6(16/9) + b(-4/3) - 10 = 0$$

$$\Rightarrow 32/3 - 4b/3 - 10 = 0$$

$$\Rightarrow (32 - 4b - 30)/3 = 0$$

$$\Rightarrow 2 - 4b = 0 \Rightarrow b = 1/2$$

$b = -11$ matches with the options.

Q50 Text Solution:

$$\text{Population after 2 decades} = 4,85,000 \times (1 + 20/100)^2$$

$$\Rightarrow \text{Population} = 4,85,000 \times (1 + 0.2)^2$$

$$\Rightarrow \text{Population} = 4,85,000 \times (1.2)^2$$

$$\Rightarrow \text{Population} = 4,85,000 \times 1.44$$

$$\Rightarrow \text{Population} = 6,98,400$$

Q51 Text Solution:

- The **Seventh Five-Year Plan (1985–90)** was launched during the tenure of Rajiv Gandhi.
- The plan emphasized **modernisation of industries** and **technological advancement**.
- It aimed to increase productivity through the adoption of **new technology and improved management practices**.
- The focus was on strengthening the **industrial sector**, especially electronics and telecommunications.
- The plan also stressed on **self-reliance and growth with social justice**.
- Major economic reforms like liberalisation and structural reforms were introduced later in 1991.

Hence, the correct answer is "Modernisation and technology upgrade".

Q52 Text Solution:

- In Windows operating system, a new folder can be created directly from the desktop context menu.
- Right-clicking on an empty area of the desktop opens a list of options.
- Selecting 'New' and then clicking on 'Folder' creates a new folder instantly.
- Clicking the Recycle Bin only opens deleted items.
- Alt + Tab is used to switch between open applications.
- Ctrl + F is generally used to find or search within a document.

Hence, the correct answer is "Right-clicking on the desktop and selecting 'New' → 'Folder'".

Q53 Text Solution:

- Gaddi Nati is a traditional folk dance performed by the Gaddi tribe.
- It is mainly associated with the state of Himachal Pradesh.
- The dance is popular in the Chamba and Kangra regions of the state.

- It is performed during festivals, fairs, and social celebrations.
- The dance features rhythmic steps, colorful traditional attire, and folk music.

Hence, the correct answer is "Himachal Pradesh".

Q54 Text Solution:

- During winter, India is influenced mainly by the **Subtropical Westerly Jet Stream (STWJ)**.
- These jet streams blow in the **upper troposphere** at high speeds.
- In winter, the jet stream flows from **west to east** across the northern part of India.
- It plays a key role in bringing **Western Disturbances**, which cause winter rainfall and snowfall in North India.
- The direction of jet streams in winter is consistent with the general circulation of winds in the mid-latitudes.

Hence, the correct answer is "West to east".

Q55 Text Solution:

The given series is:

KDG19, LEH30, MFI41, NGJ52, ?

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

Here, the logic is as follows:

Hence, OHK 63 is the correct answer.

Q56 Text Solution:

- According to the Brønsted–Lowry theory, an acid donates a proton (H^+) and a base accepts a proton.
- A conjugate acid–base pair differs by only one proton (H^+).

- NH_4^+ (ammonium ion) can donate a proton to form NH_3 (ammonia).
- NH_3 can accept a proton to form NH_4^+ .
- Thus, NH_4^+ and NH_3 differ by one H^+ and form a conjugate acid–base pair.
- The other options do not differ by a single proton, so they are not conjugate pairs.

Hence, the correct answer is " NH_4^+ and NH_3 ".

Q57 Text Solution:

- Under Article 108 of the Indian Constitution, the President can summon a joint sitting of both Houses in case of a deadlock over an **Ordinary Bill**.
- A joint sitting is held when one House rejects the bill, disagrees on amendments, or does not pass it within six months.
- A **Money Bill** cannot be referred to a joint sitting because the Rajya Sabha has only recommendatory powers and cannot reject it.
- A **Constitutional Amendment Bill** under Article 368 also cannot be referred to a joint sitting; it must be passed separately by both Houses with a special majority.
- The joint sitting is presided over by the Speaker of the Lok Sabha.

Hence, the correct answer is "1 only".

Q58 Text Solution:

Here, the logic is as follows:

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

The given,

: IKO :: TVZ : %

From option(A)

Put,

= EGK, % = XZD

Hence, # = EGK, % = XZD is the correct answer.

Q59 Text Solution:

- A no-confidence motion is moved in the Lok Sabha to test whether the Council of Ministers enjoys the majority support of the House.
- If the motion is passed by a majority of members present and voting, it means the government has lost the confidence of the Lok Sabha.
- Under Article 75(3) of the Indian Constitution, the Council of Ministers is collectively responsible to the Lok Sabha.
- Therefore, if the government loses majority support, the entire Council of Ministers, including the Prime Minister, must resign.
- After resignation, the President may invite another leader to form the government or dissolve the House if no alternative majority is possible.

Hence, the correct answer is "The entire Council of Ministers must resign."

Q60 Text Solution:

Here, the logic is as follows:

B E A **R** → **4** 5 6 7

R U I N → 1 2 3 **4**

The code of 'R' = '4'

Hence, 4 is the correct answer.

Q61 Text Solution:

- The initiative aimed to combine modern education with traditional Buddhist teachings in Himalayan monasteries.
- Monks and students are now being taught subjects such as science, mathematics, and

technology along with spiritual and philosophical studies.

- The program seeks to improve the overall academic standards in monasteries.
- It helps the monastic community adapt to contemporary socio-economic challenges while preserving cultural identity.
- By introducing modern subjects, students can remain competitive and contribute to national development.
- The move reflects the government's effort to ensure inclusive and equitable education in remote Himalayan regions.

Hence, the correct answer is "To integrate modern subjects alongside traditional teachings".

Q62 Text Solution:

- In **Microsoft PowerPoint**, the aspect ratio (such as 16:9 or 4:3) determines the **width-to-height proportion** of slides.
- A 16:9 ratio is commonly used for widescreen displays, while 4:3 is suited for older projectors and screens.
- Choosing the correct aspect ratio ensures that content fits properly without distortion or cropping.
- It affects how text, images, and graphics are arranged on the slide.
- The aspect ratio does not control the number of slides, font style, or file size directly.

Hence, the correct answer is "It defines the proportions of the slide displayed on the screen, influencing how the content is laid out and how it appears on different display devices."

Q63 Text Solution:

- **Flash Memory** is a type of non-volatile memory that stores data without requiring power.
- It is called **solid-state storage** because it has no moving mechanical parts.

- Flash memory is commonly used in USB drives, memory cards, and solid-state drives (SSDs).
- It provides faster data access and better durability compared to traditional hard disk drives (HDDs).
- Unlike primary memory (RAM), flash memory retains data even when the system is turned off.

Hence, the correct answer is "Flash Memory".

Q64 Text Solution:

- In the inscriptions of **Ashoka**, 'Dhamma' primarily refers to a **moral law or ethical code of conduct**.
- It emphasized values like non-violence, compassion, respect for elders, and tolerance toward all religions.
- Ashoka's Dhamma was not limited to Buddhist teachings but promoted universal moral principles.
- The concept aimed at maintaining social harmony and welfare of the people.
- These ideas were inscribed on pillars and rock edicts across the Mauryan Empire.

Hence, the correct answer is "Moral law".

Q65 Text Solution:

- Drip irrigation** is a method where water is supplied drop by drop directly to the root zone of plants.
- It is highly efficient and minimizes water wastage due to evaporation and runoff.
- This system is especially suitable for **arid and semi-arid regions** where water scarcity is common.
- It helps in better plant growth by providing controlled and regular moisture.
- Drip irrigation also reduces weed growth and improves fertilizer efficiency when combined with fertigation.

Hence, the correct answer is "Drip irrigation".

Q66 Text Solution:

Let the work done by 1 man in 1 day = m units.

Let the work done by 1 woman in 1 day = w units.

Total work = Work per day × Number of days.

For 3 men and 14 women:

Work per day = $(3 \times m) + (14 \times w)$

Total work = $[(3 \times m) + (14 \times w)] \times 18$

For 11 men and 8 women:

Work per day = $(11 \times m) + (8 \times w)$

Total work = $[(11 \times m) + (8 \times w)] \times 12$

Since the total work is the same for both groups:

$\Rightarrow [(3 \times m) + (14 \times w)] \times 18 = [(11 \times m) + (8 \times w)] \times 12$

$\Rightarrow 54m + 252w = 132m + 96w$

$\Rightarrow 132m - 54m = 252w - 96w$

$\Rightarrow 78m = 156w$

$\Rightarrow m = 2w$

The work of 1 man is equivalent to the work of 2 women.

Q67 Text Solution:

- The theme of the World Sustainable Development Summit (WSDS) 2025 was "Partnership for Accelerating Sustainable Development and Climate Solutions."
- The summit is organized annually by The Energy and Resources Institute (TERI).
- It serves as a global platform for discussions on climate change, energy transition, and sustainable development.
- The 2025 theme emphasized collaboration among governments, industries, and civil society.
- It focused on speeding up climate action and achieving Sustainable Development Goals (SDGs).

Hence, the correct answer is "Partnership for Accelerating Sustainable Development and Climate Solutions".

Q68 Text Solution:

N (Total frequency) = $14 + 37 + 28 + 39 + 12 = 130$

$N/2 = 130 / 2 = 65$

Cumulative frequencies:

140-190: 14

190-240: $14 + 37 = 51$

240-290: $51 + 28 = 79$

290-340: $79 + 39 = 118$

$$340-390: 118 + 12 = 130$$

The cumulative frequency just greater than 65 is 79. Therefore, the median class is 240-290.

$L = 240$ (lower boundary of the median class)

$CF = 51$ (cumulative frequency before the median class)

$f = 28$ (frequency of the median class)

$h = 50$ (class width)

$$\Rightarrow \text{Median} = 240 + ((65 - 51) / 28) \times 50$$

$$\Rightarrow \text{Median} = 240 + (14 / 28) \times 50$$

$$\Rightarrow \text{Median} = 240 + 0.5 \times 50$$

$$\Rightarrow \text{Median} = 240 + 25$$

$$\Rightarrow \text{Median} = 265$$

Q69 Text Solution:

- In February 2025, **Narendra Modi** and **Emmanuel Macron** jointly visited **Marseille**.
- During the visit, they inaugurated a new Indian consulate in the city.
- The move aimed to strengthen diplomatic presence and people-to-people ties between India and France.
- Marseille is a major port city in southern France with historical trade significance.
- The visit highlighted the growing strategic partnership between India and France.

Hence, the correct answer is "Marseille".

Q70 Text Solution:

- The demand for the **Indianisation of higher administrative services**, including the Civil Services, was first raised during the **Calcutta Session, 1886** of the Indian National Congress.
- Early Congress leaders emphasized increasing Indian representation in government services.
- They argued that qualified Indians should be given fair opportunities in the Indian Civil Services (ICS).
- At that time, higher administrative posts were largely dominated by British officials.
- The demand reflected the moderate phase of the Congress, focusing on constitutional reforms and administrative inclusion.

Hence, the correct answer is "Calcutta Session, 1886".

Q71 Text Solution:

The given equation is:

$$44 \div 8 + 5 \times 1 + 7 = ?$$

And the changes:

'+' is replaced by '-'

'x' and '÷' are interchanged

After interchanging the sign the new equation becomes:

$$44 \times 8 - 5 \div 1 - 7 = ?$$

Now from the BODMAS rule,

B	कोष्ठक (Bracket)
O	का (Of) या घातांक (Order)
D	भाग (Division)
M	गुणा (Multiplication)
A	योग (Addition)
S	अन्तर (Subtraction)

$$44 \times 8 - 5 \div 1 - 7 = ?$$

$$44 \times 8 - 5 - 7 = ?$$

$$352 - 5 - 7 = ?$$

$$352 - 12 = ?$$

$$340 = ?$$

$$? = 340$$

Hence, 340 is the correct answer.

Q72 Text Solution:

- In **Microsoft Word**, the **Define New Multilevel List** feature is used to create structured numbering like 1, 1.1, 1.1.1, etc.
- It allows users to customize numbering formats and link levels to specific heading styles.
- This feature is especially useful for creating reports, projects, and official documents with hierarchical structure.
- The Format Painter only copies formatting, not numbering structure.
- The Increase Indent button changes text indentation but does not define numbering

patterns.

Hence, the correct answer is "Define New Multilevel List".

Q73 Text Solution:

- Ordnance Factories Day is observed on **18th March** every year in India.
- It commemorates the establishment of India's first ordnance factory at **Ordnance Factory Cossipore**.
- The factory was set up in **1801** at Cossipore (now in Kolkata, West Bengal).
- It marked the beginning of organized defence manufacturing in India.
- The day recognizes the contribution of ordnance factories in strengthening India's defence capabilities.

Hence, the correct answer is "Cossipore".

Q74 Text Solution:

- **Mixed farming** is an agricultural system where farmers grow crops and raise livestock on the same farm.
- It ensures better utilization of land, labour, and resources throughout the year.
- Crop residues are used as fodder for animals, while animal manure is used as organic fertilizer for crops.
- This system reduces risk, as farmers are not dependent on a single source of income.
- Mixed farming is commonly practiced in regions with moderate climate and fertile soil.

Hence, the correct answer is "Mixed farming".

Q75 Text Solution:

Given number: 5634812

Rule:

Add 2 to each odd digit

Subtract 1 from each even digit

Step 1: Change each digit

Digit	Odd/Even	Operation	New Digit
5	Odd	$5 + 2$	7
6	Even	$6 - 1$	5
3	Odd	$3 + 2$	5
4	Even	$4 - 1$	3
8	Even	$8 - 1$	7
1	Odd	$1 + 2$	3
2	Even	$2 - 1$	1

Step 2: New number formed

7 5 5 3 7 3 1

Step 3: Check repeated digits

Digits are: 7, 5, 5, 3, 7, 3, 1

Repeated digits:

7 (2 times)

5 (2 times)

3 (2 times)

So, 3 digits appear more than once.

Hence, 3 is the correct answer.

Q76 Text Solution:

$$6^2 = y \times (y + 5)$$

$$\Rightarrow 36 = y^2 + 5y$$

$$\Rightarrow y^2 + 5y - 36 = 0$$

$$\Rightarrow y^2 + 9y - 4y - 36 = 0$$

$$\Rightarrow y(y + 9) - 4(y + 9) = 0$$

$$\Rightarrow (y - 4)(y + 9) = 0$$

$$\Rightarrow y = 4 \text{ (reject } -9 \text{ as length cannot be negative)}$$

$$\therefore TP = y = 4 \text{ cm.}$$

Q77 Text Solution:

According to the given information,

Only four boxes are kept between C and D.

Only E is kept above C.

Only two boxes are kept between F and A.

G is kept immediately above B.

A is not kept immediately above G.

E
C
F
G
B
A
D

As we can see from final arrangement, there are two boxes are kept above F.

Hence, 2 is the correct answer.

Q78 Text Solution:

- Sunlight on the Broken Column was written by Attia Hosain and published in 1961.
- The novel is set in pre- and post-Independence India and focuses on the social and political changes during the time of Partition.
- It portrays the decline of a traditional feudal (Taluqdari) Muslim family in Lucknow.
- The story is narrated through the perspective of a young woman, highlighting themes of identity, reform, and transformation.
- The novel is considered an important literary work reflecting the impact of the Partition on Indian society.

Hence, the correct answer is "Sunlight on the Broken Column".

Q79 Text Solution:

Here, the logic is as follows:

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

Hence, JI-15 is the correct answer.

Q80 Text Solution:

- After the 2024 Jammu & Kashmir Assembly elections, **Surinder Kumar Choudhary** was appointed as the Deputy Chief Minister.
- He is a senior leader of the **Jammu & Kashmir National Conference** (JKNC).
- The appointment came following the formation of the new government in the Union Territory.
- The Deputy Chief Minister assists the Chief Minister in administrative and governance responsibilities.
- The JKNC played a key role in the post-election political developments in Jammu & Kashmir.

Hence, the correct answer is "Surinder Kumar Choudhary, Jammu & Kashmir National Conference (JKNC)".

Q81 Text Solution:

- The Constitution (Fourteenth Amendment) Act, 1962 was enacted to incorporate certain former French territories into the Indian Union.
- Through this amendment, Puducherry (then known as Pondicherry) was formally added as a **Union Territory of India**.
- The amendment also provided for the creation of a legislature and Council of Ministers for the Union Territory.

- Puducherry, along with Karaikal, Mahe, and Yanam, became part of India after the de facto transfer from France in 1954 and de jure transfer in 1962.
- This amendment strengthened India's territorial and administrative framework.

Hence, the correct answer is "Puducherry".

Q82 Text Solution:

Let cost price of manufacturer = x
 Manufacturer sells to wholesaler: $x \times (1 + 10/100)$
 $= x \times 1.1$
 Wholesaler sells to retailer: $1.1x \times (1 + 16/100) =$
 $1.1x \times 1.16$
 Retailer sells to customer: $1.1x \times 1.16 \times (1 + 25/100)$
 $= 1.1 \times 1.16 \times 1.25 \times x$
 $\Rightarrow 1.1 \times 1.16 \times 1.25 \times x = 63800$
 $\Rightarrow 1.595 \times x = 63800$
 $\Rightarrow x = 63800 \div 1.595$
 $\Rightarrow x = 40000$

Q83 Text Solution:

Here, the same logic is followed in all option except option(C)

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

Let's see from option:

(A) VP - DX

$V + 8 = D$

$P + 8 = X$

ZT - HB

(B) Z + 8 = H

$T + 8 = B$

(C) DX - LE

$D + 8 = L$

$X + 7 = E$

(D) HB - PJ

$H + 8 = P$

$B + 8 = J$

As we can see the given letters in option(C) do not belong to the group.

Hence, DX - LE is the correct answer.

Q84 Text Solution:

Total work = LCM(13,52) = 52 units
 $\Rightarrow$ A's efficiency = $52 \div 13 = 4$ units/day
 $\Rightarrow$ B's efficiency = $52 \div 52 = 1$ unit/day
 $\Rightarrow$ (A + B) per day = $4 \times 1 = 5$ units/day
 $\Rightarrow$ Work done in 2 days = $5 \times 2 = 10$ units
 $\Rightarrow$ Remaining work = $52 - 10 = 42$ units
 $\Rightarrow$ B alone takes = $42 \div 1 = 42$ days
 Hence, Option A is the correct answer.

Q85 Text Solution:

Distance covered in first part = $(2/3) \times 549 = 366$ km
 Time taken for first part = $(3/4) \times 8 = 6$ hours
 Remaining distance = $549 - 366 = 183$ km
 Remaining time = $8 - 6 = 2$ hours
 Required speed for the remaining distance =
 Distance $\div$ Time = $183 \div 2 = 91.5$ km/hr
 Hence, Option A is the correct answer.

Q86 Text Solution:

SP = $1,140 \times (1 - 70/100)$
 $\Rightarrow$ SP = $1,140 \times 0.3$
 $\Rightarrow$ SP = ₹342
 Profit = SP - CP
 $\Rightarrow$ Profit = $342 - 285$
 $\Rightarrow$ Profit = ₹57
 Profit Percentage = $(\text{Profit} / \text{CP}) \times 100$
 $\Rightarrow$ Profit Percentage = $(57 / 285) \times 100$
 $\Rightarrow$ Profit Percentage = 0.2×100
 $\Rightarrow$ Profit Percentage = 20%

Q87 Text Solution:

Given Numbers:
 441, 317, 999, 155, 444
 Step 1: Find the highest and lowest numbers
 Highest number = 999
 Lowest number = 155
 Step 2: Identify required digits
 Third digit of highest number (999)
 $\rightarrow 9$
 First digit of lowest number (155)
 $\rightarrow 1$
 Step 3: Subtract
 Result = First digit of lowest - Third digit of highest

$$1-9=-8$$

Hence, -8 is the correct answer.

Q88 Text Solution:

Here, the logic is as follows:

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

L	I	Q	M	&	I	F	N	J
-2	-2	-2	-2		-2	-2	-2	-2
J	G	O	K		G	D	L	H
O	L	T	P					
-2	-2	-2	-2					
M	J	R	N					

Hence, MJRN is the correct answer.

Q89 Text Solution:

$$\text{Length} = (2x - 5y + 3) \text{ m}$$

$$\text{Breadth} = (5x + 7y - 7) \text{ m}$$

$$\text{Height} = (x + y + 3) \text{ m}$$

Formula Used:

$$\text{Perimeter of a cuboid} = 4 \times (\text{length} + \text{breadth} + \text{height})$$

Calculation:

$$\text{Perimeter of a cuboid} = 4 \times (\text{length} + \text{breadth} + \text{height})$$

$$\Rightarrow 4 \times [(2x - 5y + 3) + (5x + 7y - 7) + (x + y + 3)]$$

$$\Rightarrow 4 \times [8x + 3y - 1]$$

$$\Rightarrow 32x + 12y - 4 \text{ m}$$

Q90 Text Solution:

According to the given information,

Only one person sits between T and S when counted from the right of T.

Only one person sits between S and C.

Only one person sits between T and R.

Only two people sit between A and C.

Only one person sits between B and R.

As we can see from final arrangement, S is sits third to the right of D.

Hence, S is the correct answer.

Q91 Text Solution:

- Chandragupta I was an early ruler of the Gupta dynasty in ancient India.
- He adopted the grand imperial title "**Maharajadhiraja**", which means "King of Kings."
- This title indicated his growing power and the establishment of a strong empire.
- The use of such a title marked the beginning of the Gupta Empire's political prominence.
- His reign laid the foundation for the later expansion under Samudragupta.

Hence, the correct answer is "**Maharajadhiraja**".

Q92 Text Solution:

The given equation is:

$$522 \times 708 - 59 + 19 \div 17 = ?$$

Now interchange:

$\div$ and $-$

$\times$ and $+$

After interchanging the sign the new equation becomes:

$$522 + 708 \div 59 \times 19 - 17 = ?$$

Now from the BODMAS rule,

B	कोष्ठक (Bracket)
O	का (Of) या घातांक (Order)
D	भाग (Division)
M	गुणा (Multiplication)
A	योग (Addition)
S	अन्तर (Subtraction)

$$522 + 708 \div 59 \times 19 - 17 = ?$$

$$522 + 12 \times 19 - 17 = ?$$

$$522 + 228 - 17 = ?$$

$$750 - 17 = ?$$

$$733 = ?$$

Hence, 733 is the correct answer.

Q93 Text Solution:

$$(a - b)^2 = a^2 + b^2 - 2ab = 163 - 2(27) = 163 - 54 = 109$$

$$\Rightarrow \sqrt{(a - b)^2} = \sqrt{109} \Rightarrow a - b = \sqrt{109} \text{ (positive because } a > b)$$

$$(a + b)^2 = a^2 + b^2 + 2ab = 163 + 54 = 217$$

$$\Rightarrow \sqrt{(a + b)^2} = \sqrt{217} \Rightarrow a + b = \sqrt{217}$$

$$\text{So, } (a - b) / (a + b) = \sqrt{109} / \sqrt{217} = \sqrt{(109 / 217)}$$

Q94 Text Solution:

Here, the same logic is followed in all option except option(D)

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

Let's see from option:

$$\text{A NJGB} \quad N \xrightarrow{-4} J \xrightarrow{-3} G \xrightarrow{-5} B$$

$$\text{B TPMH} \quad T \xrightarrow{-4} P \xrightarrow{-3} M \xrightarrow{-5} H$$

$$\text{C AWTO} \quad A \xrightarrow{-4} W \xrightarrow{-3} T \xrightarrow{-5} O$$

$$\text{D EAYS} \quad E \xrightarrow{-4} A \xrightarrow{-2} Y \xrightarrow{-6} S$$

Hence, EAYS is the correct answer.

Q95 Text Solution:

- The Union Cabinet of India is the highest decision-making authority in the executive branch of the Government of India.
- It coordinates major national policies and ensures uniform implementation across ministries.
- **Foreign Relations** are managed at the central level as they deal with diplomacy, treaties, and international agreements.
- **Defence** is also under the exclusive authority of the Union Government as it concerns national security and armed forces.
- Both subjects fall under the **Union List** of the Constitution of India, meaning only the central government can legislate on them.

Hence, the correct answer is "Foreign Relations and Defence".

Q96 Text Solution:

- COP29 was held in **Baku, Azerbaijan**, in November 2024.
- COP stands for **Conference of the Parties** to the UN Framework Convention on Climate Change (UNFCCC).
- The conference brings together world leaders, negotiators, and climate experts to discuss global climate action.
- Key discussions generally include carbon emission reduction, climate finance, adaptation strategies, and loss & damage.
- Each year, a different country hosts the COP summit to advance international climate commitments.

Hence, the correct answer is "COP29".

Q97 Text Solution:

The given series is:

$$12, 29, 63, 131, 267, ?$$

Here, the logic is as follows:

$$12 \times 2 + 5 = 29$$

$$29 \times 2 + 5 = 63$$

$$63 \times 2 + 5 = 131$$

$$131 \times 2 + 5 = 267$$

$$267 \times 2 + 5 = 539$$

Hence, 539 is the correct answer.

Q98 Text Solution:

- Bharatiya Janata Party (BJP) formed the government in Haryana for the third consecutive term, reflecting its strong political base in the state.
- Indian National Lok Dal (INLD) secured 2 seats in the 2024 Haryana Assembly elections.
- Independent candidates did not secure more than 5 seats, making statement 3 incorrect.
- The Haryana Legislative Assembly consists of 90 members, and the majority mark is 48 seats; however, since statement 4 is not included in the correct option combination, it is not considered correct in this context.
- Major political players in Haryana include BJP, Congress, INLD, and regional parties, making elections highly competitive.

Hence, the correct answer is "Only 1 and 2".

Q99 Text Solution:

- The Chamber of Princes was established in **1921** by the British Government in India.
- It was created as a **deliberative and advisory body** for the rulers of princely states.
- The institution provided a platform for princes to discuss matters of common interest and present their views to the British Crown.
- It was also known as the **Narendra Mandal**.
- The Chamber did not have legislative powers but served as a consultative forum during

British rule.

Hence, the correct answer is "Chamber of Princes".

Q100 Text Solution:

Given sets:

(88, 76, 64)

(71, 59, 47)

Step 1: Check the difference

First set:

$$88 - 76 = 12$$

$$76 - 64 = 12$$

Second set:

$$71 - 59 = 12$$

$$59 - 47 = 12$$

Pattern: Each number decreases by 12.

Now check options:

A) (40, 38, 36)

$$40 - 38 = 2$$

$$38 - 36 = 2 \quad \times \text{ (Not 12)}$$

B) (64, 52, 40)

$$64 - 52 = 12$$

$$52 - 40 = 12 \quad \checkmark$$

C) (99, 77, 55)

$$99 - 77 = 22$$

$$77 - 55 = 22 \quad \times$$

D) (58, 46, 24)

$$58 - 46 = 12$$

$$46 - 24 = 22 \quad \times$$

Hence, (64, 52, 40) is the correct answer.
