

RRB NTPC Undergraduate Level (CBT 1) PYP (18 Aug, 2025 Shift 3)

- Q1** Which of the following government bodies is responsible for disaster response and management at the national level in India?
(A) NDMA (B) IRDA
(C) NITI Aayog (D) SDRF
- Q2** The opening of which of the following canals increased British control over India's foreign trade?
(A) Conolly Canal
(B) Munak Canal
(C) Buckingham Canal
(D) Suez Canal
- Q3** In 1988, who among the following became India's first Grandmaster in chess?
(A) Pentala Harikrishna
(B) Dibyendu Barua
(C) Viswanathan Anand
(D) R. Praggnanandhaa
- Q4** What is the name of the Super Expressway that connects the metropolitan cities of New Delhi, Mumbai, Chennai, and Kolkata?
(A) Golden Quadrilateral
(B) North-South Corridor
(C) East-West Corridor
(D) National Highway 44
- Q5** Which of the following texts is considered to be the oldest Tamil grammar work?
(A) Manimekalai (B) Kural
(C) Tolkappiyam (D) Silappadikaram
- Q6** Where is Wedge Bank, the site of a hydrocarbon exploration project proposed in May 2025 under the Hydrocarbon Exploration and Licensing Policy (HELP) and being opposed by fishermen, located?
(A) A deep ocean basin in the Arabian Sea, about 60 km west of Mumbai
(B) An offshore reef near the Andaman Islands in the Bay of Bengal region
(C) A submarine plateau in the Indian Ocean, approximately 80 km off the southern coast
(D) A coral island near the Lakshadweep Islands in the Indian Ocean
- Q7** India began implementing which railway safety system across the country in 2025, covering 3,500 km at a cost of ₹1,700 crore?
(A) Namu Bharat Signalling System
(B) Nationwide Railway Safety System
(C) GPS-based Tracking System
(D) Kavach Automatic Train Protection
- Q8** According to the Constitution, which of the following subjects does not fall under the control of the Delhi Legislative Assembly?
(A) Public order (B) Education
(C) Electricity (D) Public health
- Q9** Under the RTI Act, what is the time limit for obtaining information from a public authority?
(A) 60 days (B) 30 days
(C) 45 days (D) 15 days
- Q10** Which physiographic structure primarily controls the eastern boundary of the Indian desert?
(A) Aravalli Hills (B) Satpura Hills
(C) Western Ghats (D) Vindhya Range
- Q11** Which Australian plateau was formed by the solidification of molten lava?
(A) Malwa Plateau
(B) Columbia and Snake Rivers Plateau
(C) Kimberley Plateau
(D) Patagonian Plateau

- Q12** What is the study of heredity and variation called?
 (A) Evolution (B) Mutation
 (C) Genetics (D) Biology
- Q13** Which of the following indicators is not included in the Multidimensional Poverty Index (MPI)?
 (A) Years of schooling
 (B) Per capita monthly expenditure
 (C) Nutrition
 (D) Access to electricity
- Q14** Employment patterns showed limited variation during 1947–1991. Which sector employed the largest share of India's workforce during this period?
 (A) Services sector
 (B) Agriculture
 (C) Infrastructure
 (D) Secondary sector
- Q15** As announced in 2025, what type of engine is ISRO designing for the Next Generation Launch Vehicle (NGLV)?
 (A) Cryogenic solid fuel engine
 (B) LOX-kerosene hybrid engine
 (C) Hydrogen-fueled engine
 (D) LOX-methane engine
- Q16** Where was the 2025 Southeast Asia Regional Forum of the Organisation for Economic Co-operation and Development (OECD) held?
 (A) Kuala Lumpur, Malaysia
 (B) Manila, Philippines
 (C) Jakarta, Indonesia
 (D) Bangkok, Thailand
- Q17** Which of the following mountain ranges separates the Kashmir Valley from the rest of the Himalayan region?
 (A) Ladakh (B) Zaskar
 (C) Pir Panjal (D) Karakoram
- Q18** In the year 2025, how many persons were awarded the Padma Award?
 (A) 120 (B) 150
 (C) 113 (D) 139
- Q19** In May 2025, which of the following ISRO missions failed to deploy its Earth observation satellite due to a third stage anomaly in the PSLV-C61 rocket?
 (A) Cartosat-3 (B) INSAT-3DS
 (C) EOS-09 (D) RISAT-2BR2
- Q20** Which of the following cities hosted the 19th Pravasi Bharatiya Divas (PBD) convention held in January 2025?
 (A) Indore (B) Bhubaneswar
 (C) Bengaluru (D) Varanasi
- Q21** During British rule in India, which harmful social practice was banned by Lord Bentinck in 1829?
 (A) Child marriage (B) Sati
 (C) Polygamy (D) Dowry
- Q22** Which of the following is not part of urban transportation infrastructure?
 (A) Highways
 (B) Metro system
 (C) Rail network
 (D) Irrigation canals
- Q23** Select the incorrect operating system used in computers and laptops.
 (A) Android (B) Windows
 (C) Unix (D) Linux
- Q24** The Monetary Policy Committee (MPC) was established to formalize inflation targeting. How many members are there in India's MPC?
 (A) 6 (B) 7
 (C) 5 (D) 3
- Q25** What is the spatial resolution of the India Forecasting System (BFS), launched in May 2025?
 (A) 10 kilometers (B) 3 kilometers
 (C) 6 kilometers (D) 12 kilometers
- Q26** In which region was the most severe violence and martial law imposed during the Rowlatt Satyagraha?
 (A) Bengal (B) Punjab
 (C) Gujarat (D) Bihar

- Q27** Which company became the first in India to develop steel pipes for hydrogen transportation?
 (A) SAIL
 (B) Tata Steel
 (C) Hindalco Industries
 (D) Jindal Steel & Power
- Q28** The book, 'PMO: Prime Minister's Office through the Years', released in May 2025, was written by whom?
 (A) Nayab Singh Saini
 (B) Jagdeep Dhankhar
 (C) Manohar Lal Khattar
 (D) Himanshu Roy
- Q29** Which of the following statements is correct regarding the legislative allocation of cooperative societies in the Constitution of India?
 (A) It is a subject in the Concurrent List.
 (B) It is a subject in the Union List.
 (C) It falls under the Residuary (Union) List.
 (D) It is a subject in the State List.
- Q30** How many Agamas are included in the Svetambara canon of Jainism?
 (A) 35 (B) 6
 (C) 45 (D) 12
- Q31** The Ministry of Defence's planned order for 500 Invar anti-tank guided missiles – worth ₹2,000-₹3,000 crore – will be awarded to which defence public sector unit (PSU)?
 (A) Bharat Dynamics Limited
 (B) Bharat Electronics Limited
 (C) Armoured Crane Corporation Limited
 (D) Garden Reach Shipbuilders and Engineers Limited
- Q32** In which geographical region was the 1962 India-China War primarily fought?
 (A) Brahmaputra Valley
 (B) Himalayan Range
 (C) Indo-Gangetic Plain
 (D) Deccan Plateau
- Q33** Which of the following elements is classified as a lanthanoid element?
 (A) Scandium (B) Yttrium
 (C) Actinium (D) Cerium
- Q34** What does GUI mean in the context of an operating system?
 (A) General User Instruction
 (B) Graphical Unix Integration
 (C) Global Utility Interface
 (D) Graphical User Interface
- Q35** Which of the following Jain councils was held in Vallabhi (Gujarat) in 512 AD under the chairmanship of Devardhi Kshamashraman?
 (A) Fourth (B) Third
 (C) Second (D) First
- Q36** In 2025, which Indian regulatory body has launched the 'Digital India Financial Literacy Mission' to raise awareness about digital finance and online fraud prevention?
 (A) Reserve Bank of India (RBI)
 (B) Financial Stability and Development Council (FSDC)
 (C) National Financial Reporting Authority (NFRA)
 (D) Securities and Exchange Board of India (SEBI)
- Q37** Which country became a full member of BRICS in January 2025?
 (A) Nigeria (B) Argentina
 (C) Egypt (D) Indonesia
- Q38** Which constitutional amendment introduced the Goods and Services Tax (GST) in India?
 (A) 102nd Amendment Act, 2018
 (B) 100th Amendment Act, 2015
 (C) 101st Amendment Act, 2016
 (D) 99th Amendment Act, 2015
- Q39** Which of the following articles deals with the constitutional amendment process?
 (A) Article 370 (B) Article 300
 (C) Article 208 (D) Article 368
- Q40** What is the name of the principle that explains that every point on a wavefront acts as a source of secondary wavelets that propagate in all directions and form a new wavefront?

- (A) Fermat's Principle
(B) Superposition Principle
(C) Huygens' Principle
(D) Doppler's Principle
- Q41** X, Y, and Z invested a sum of money in the ratio 16:85:54, respectively. If they made a total profit of ₹3,750 at the end of the year, what is the difference between the shares of Y and Z?
(A) ₹750 (B) ₹742
(C) ₹706 (D) ₹676
- Q42** The diagonals of a rectangle $PQRS$ meet at O . If $\angle QOR = 36^\circ$, find $\angle OPS$.
(A) 54° (B) 108°
(C) 144° (D) 72°
- Q43** Which of the following numbers divides 769501?
(A) 105 (B) 96
(C) 90 (D) 97
- Q44** A bus traveling at a speed of 36 km/hr completes a journey in 5 hours. What should its speed be to cover the same distance in 10 hours?
(A) 18 km/hr (B) 22 km/hr
(C) 17 km/hr (D) 9 km/hr
- Q45** Which of the following numbers divides 71,67,10,501?
(A) 20 (B) 13
(C) 19 (D) 16
- Q46** If the dimensions of a cuboid are $18\text{ m} \times 12\text{ m} \times 9\text{ m}$, find its total surface area.
(A) 972 m^2 (B) 1128 m^2
(C) 998 m^2 (D) 1062 m^2
- Q47** How much is 65% of 65 more than $\frac{3}{5}$ of 25?
(A) 27.25 (B) 24.25
(C) 25.25 (D) 21.25
- Q48** $\sqrt{289} + \sqrt{0.0324} - \sqrt{7.29} =$
(A) 12.59 (B) 14.48
(C) 9.08 (D) 11.21
- Q49** The successive discounts of 8% and 5% will amount to a total discount of ____.
- (A) 12.5% (B) 13.5%
(C) 13.4% (D) 12.6%
- Q50** Simplify the following.
 $x(3x - 6) + 5(x^2 - 4) + 19$
(A) $-8x^2 - 6x + 1$ (B) $-8x^2 - 6x - 1$
(C) $8x^2 - 6x + 1$ (D) $8x^2 - 6x - 1$
- Q51** In an election between two candidates, 90% of the registered voters cast their votes, and 18% of the votes cast were declared invalid. The winning candidate received 51% of the valid votes and won the election by a margin of 1845 votes. How many voters were registered?
(A) 124997 (B) 124998
(C) 124999 (D) 125000
- Q52** A table has a marked price of ₹8,000. A shopkeeper buys it at two successive discounts of 20% and 25%. He sells the table for ₹8,000 after spending ₹300 on transportation. Find his profit percentage.
(A) $56\frac{45}{51}\%$ (B) $56\frac{44}{51}\%$
(C) $56\frac{42}{51}\%$ (D) $56\frac{43}{51}\%$
- Q53** The selling price of 22 books is equal to the cost price of 11 books. Find the loss or profit percentage.
(A) 50% loss
(B) 50% profit
(C) $\frac{100}{11}\%$ loss
(D) $\frac{100}{11}\%$ profit
- Q54** The product of two consecutive natural numbers is 870. What is the larger of the two numbers?
(A) 41 (B) 30
(C) 21 (D) 38
- Q55** Find the average of the first 154 odd natural numbers.
(A) 154 (B) 155
(C) 153.5 (D) 154.5
- Q56** Find the simple interest (in ₹) on ₹1,200 at a monthly interest rate of 4% for 8 months.
(A) ₹520 (B) ₹384
(C) ₹640 (D) ₹480

Q57 The Least Common Multiple (LCM) of two numbers is seven times their Highest Common Factor (HCF). The difference between the HCF and the LCM is 222. Find the product of the two numbers.

- (A) 9086 (B) 9276
(C) 9583 (D) 9158

Q58 Find the value of $(-9) - (-60) \div (-6) + (-4) \times 6$.

- (A) -45 (B) -42
(C) -46 (D) -43

Q59 7 years ago, a father's age was 20 years more than twice the age of his son. After how many years from now will his age become twice the age of his son?

- (A) 11 (B) 13
(C) 16 (D) 12

Q60 Find the mean proportional between 16 and 256.

- (A) 63 (B) 65
(C) 64 (D) 66

Q61 Daksh travels 168 km at 21 km/hr, the next 100 km at 20 km/hr and the next 371 km at 53 km/hr. What is his average speed (in km/hr) for the whole journey?

- (A) 31.95 (B) 23.34
(C) 36.61 (D) 29.63

Q62 5 men can complete a work in 16 days, while 3 women can complete it in 15 days. In how many days can 9 women and 4 men complete this work?

- (A) 1 day (B) 2 days
(C) 4 days (D) 3 days

Q63 The marks scored by 10 students are given below.

12, 14, 14, 15, 12, 16, 12, 10, 19, 11

The mode of the given data is:

- (A) 19 (B) 14
(C) 14 (D) 12

Q64 A hollow spherical shell is made of a metal with a density of 15 g/cm^3 . Its inner and outer radii are 8

cm and 11 cm, respectively. What is the mass of the shell (in kg)? (Use $\pi = \frac{22}{7}$).

- (A) 52.96 (B) 48.48
(C) 52.67 (D) 51.48

Q65 Find the value of $\frac{5}{2} + \left(\frac{1}{1+\frac{3}{8}} \right) - \frac{3}{5}$.

- (A) $\frac{297}{118}$ (B) $\frac{290}{107}$
(C) $\frac{284}{109}$ (D) $\frac{289}{110}$

Q66 A vertical pole 18 feet high is broken at a certain height and its upper part, which is not completely detached, meets the ground at an angle of 30° . Find the height at which the pole is broken.

- (A) 7 feet (B) 6 feet
(C) 4 feet (D) 5 feet

Q67 92 mirrors were purchased for ₹92, and 35 mirrors were broken during transportation. The merchant sold the remaining mirrors at a rate of ₹4.40 per mirror. Find his profit.

- (A) ₹157.90 (B) ₹153.10
(C) ₹158.80 (D) ₹161.70

Q68 Pipe A can fill a tank in 12 hours, pipe B can fill the same tank in 30 hours, and pipe C can fill the same tank in 18 hours. If they are all opened together, how much time will it take to fill the same tank?

- (A) $9\frac{25}{31}$ hours (B) $15\frac{25}{31}$ hours
(C) $8\frac{25}{31}$ hours (D) $5\frac{25}{31}$ hours

Q69 The simple interest on a certain principal at an annual interest rate of 6.4% for $6\frac{1}{2}$ years is ₹9,204. Find the amount payable on the same principal at an annual simple interest rate of 7.6% for $6\frac{2}{3}$ years.

- (A) ₹33,336 (B) ₹33,340
(C) ₹33,348 (D) ₹33,335

Q70 ₹44,200 is divided among A, B, and C such that 3 times A's share = 9 times B's share = 4 times C's share. Find A's share.

- (A) ₹21,304 (B) ₹21,081
(C) ₹21,178 (D) ₹21,216

Q71 Which of the following letter-number combinations, when placed in the place of the question mark (?) in the given series, will logically complete the series?

HKB 11, FIZ 19, DGX 27, BEV 35, ?

- (A) XAT 42 (B) ZCT 43
(C) ACR 43 (D) ZBR 45

Q72 Based on the English alphabetical order, KHIG is related to HEFD in a certain way. Similarly, DABZ is related to AXYW. Following the same logic, which of the given options is related to BYZX?

- (A) YWVD (B) YVWU
(C) YVVU (D) YUVU

Q73 Six friends T, V, W, X, Y, and Z are sitting around a circular table facing the center. V is sitting second to the right of Y. Y is sitting immediately to the left of T. X is sitting second to the left of W. How many people are sitting between Z and V when counted from the left of V?

- (A) None (B) One
(C) Two (D) Three

Q74 In a certain code language, 'HALF' is coded as '2586' and 'FLAG' is coded as '7862'. What is the code for 'G' in this code language?

- (A) 7 (B) 6
(C) 2 (D) 8

Q75 What will come in place of the question mark (?) in the given series?

391, 392, 396, 405, 421, ?

- (A) 441 (B) 446
(C) 431 (D) 436

Q76 This question is based on the five four-digit numbers given below.

(Left) 1338 2325 3627 5513 1764 (Right)

(For example, consider 6975 - the first digit = 6, the second digit = 9, the third digit = 7, and the fourth digit = 5)

(Note: All operations should be performed from left to right.)

If all the digits of each number are reversed, what will be the result of multiplying the second

digit of the second largest number by the second digit of the smallest number?

- (A) 3 (B) 1
(C) 4 (D) 2

Q77 If 1 is added to each odd digit and 4 is subtracted from each even digit in the number 6854376, how many digits will appear more than once in the new number?

- (A) Three (B) Two
(C) None (D) One

Q78 Based on the English alphabetical order, three of the following four letter groups are similar in a certain way and thus form a group. Which letter group does not belong to that group?

(Note: The odd one out is not based on the number or position of consonants/vowels.)

- (A) ROK (B) FCY
(C) MJF (D) LID

Q79 Refer to the following number-symbol series and answer the question below. Counting should be done only from left to right.

(Left) 58*>414\4\$\$^3?52%/>924 (Right)

How many numbers are there, each of which is immediately preceded by a symbol and immediately followed by another number?

- (A) Two (B) Three
(C) One (D) Four

Q80 In the following pairs of numbers, the second number is obtained by performing some mathematical operations on the first number. Select the pair in which the numbers are related in the same way as the numbers in the following pairs.

(Note: The operations must be performed on the whole numbers without breaking them down into their constituent digits. For example, take 13 - operations can be performed on 13 as a whole number, such as adding/subtracting/multiplying etc. Breaking 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

78, 39

84, 42

(A) 58,19

(B) 94,48

(C) 66,33

(D) 52,23

Q81 In a certain code language, 'keep your goal' is coded as 'yt ru kj' and 'mind your business' is coded as 'kj gb mi'. How will 'your' be coded in the given language?

(A) yt

(B) kj

(C) mi

(D) ru

Q82 If + means -, - means $\times$, $\times$ means $\div$, and $\div$ means +, then what will come in place of the question mark (?) in the following equation?

$$40 \times 4 + 12 \div 6 - 4 = ?$$

(A) 14

(B) 22

(C) 17

(D) 20

Q83 Based on the English alphabetical order, three of the following four letter groups are similar in a certain way and thus form a group. Which letter group does not belong to that group?

(Note: The odd one out is not based on the number or position of consonants/vowels.)

(A) VOU

(B) OHM

(C) RKQ

(D) TMS

Q84 If ' $\div$ ' and '-' are interchanged, and ' $\times$ ' and '+' are interchanged, what will come in place of the question mark (?) in the following equation?

$$63 \times 9 \div 3 - 3 \times 24 + 22 \div 11 + 9 = ?$$

(A) 526

(B) 494

(C) 500

(D) 428

Q85 Heerat starts walking from point A and walks 2 km east. Then she turns left and walks 2 km. She turns left again and walks 2 km. Finally, she turns left and walks 5 km to reach point B. How far (minimum distance) and in which direction should she walk to reach point A again? (Unless otherwise specified, all turns are 90° turns.)

(A) 2 km west

(B) 2 km south

(C) 2 km north

(D) 3 km north

Q86 Read the given statements and conclusions carefully. Assuming that the information given in

the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusions logically follows from the statements.

Statements:

All pencils are erasers.

Some erasers are crayons.

Conclusions (I): Some pencils are crayons.

Conclusions (II): Some erasers are pencils.

(A) Neither conclusion (I) nor (II) follows.

(B) Only conclusion (II) follows.

(C) Only conclusion (I) follows.

(D) Both conclusions (I) and (II) follow.

Q87 If '+' and ' $\div$ ' are interchanged, and '-' and ' $\times$ ' are interchanged, then what will come in place of the question mark (?) in the following equation?

$$9 + 5 \div 130 - 10 \times 22 = ?$$

(A) 1202.8

(B) 1259.8

(C) 1200.8

(D) 1279.8

Q88 What should come in place of the question mark (?) in the given series?

58, 60, 65, 73, 84, ?

(A) 89

(B) 84

(C) 95

(D) 98

Q89 Select the pair that follows the same pattern as the two pairs given below. Both pairs follow the same pattern.

ITM : LSO

SSV : VRX

(A) FTF : ISI

(B) WQJ : ZRL

(C) TNN : WMP

(D) SUK : VTL

Q90 Seven boxes T, U, V, W, X, Y, and D are stacked one above the other, but not necessarily in that order. Only two boxes are placed below W. Only one box is placed above Y. Only one box is placed between Y and U. T is placed immediately above X. D is placed at some position below V. How many boxes are placed between V and T?

(A) One

(B) Two

(C) Three

(D) Four

Q91

Based on the English alphabetical order, three of the following four letter-group pairs are alike in a certain way and thus form a group. Which letter-group pair does not belong to that group?

(Note: The odd letter-group pair is not based on the number or position of consonants/vowels within it.)

- (A) RU-PS (B) UX-SW
(C) MP-KO (D) PS-NR

- Q92** Select the pair that follows the same pattern as the two pairs given below. Both pairs follow the same pattern.

CSL : FPG

KGX : NDS

- (A) MMX: PQS (B) NGN: QJJ
(C) JKY: MMT (D) DJF: GGA

- Q93** Read the given statements and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusions logically follow from the statements.

Statements:

All scissors are crayons.

Some crayons are erasers.

Conclusions:

- (I) Some scissors are erasers.
(II) Some erasers are crayons.
(A) Both conclusions (I) and (II) follow.
(B) Only conclusion (I) follows.
(C) Only conclusion (II) follows.
(D) Neither conclusion (I) nor (II) follows.

- Q94** What should come in place of the question mark (?) in the given series?

61, 60, 56, 47, 31, ?

- (A) 6 (B) 9
(C) 28 (D) 14

- Q95** Which of the following letter-number combinations, when placed in the place of the question mark (?) in the given series, will logically complete the series?

YPP -1 VRM -3 ? PVG -27 MXD -81

- (A) STI-9 (B) SSJ -6
(C) SSI -6 (D) STJ -9

- Q96** In a classroom, all 129 students are standing in a straight line facing north. Lalit is 33rd from the right end, while Sahil is 27th from the left end. How many people are standing between Lalit and Sahil?

- (A) 68 (B) 72
(C) 69 (D) 70

- Q97** Sheghal is ranked 33rd from the top and 18th from the bottom in his class. How many students are there in his class?

- (A) 53 (B) 50
(C) 52 (D) 51

- Q98** Six people A, B, C, D, E, and F are sitting in a straight line. All are facing north. B is sitting third from the right end of the row. Only two people are sitting between B and E. C is sitting second to the right of B. F is an immediate neighbor of both B and C. A is sitting immediately to the right of D. How many people are sitting between D and F?

- (A) Four (B) One
(C) Two (D) Three

- Q99** Suresh starts his journey from point A and drives 7 km towards the west. Then he turns right, drives 3 km, again turns right and drives 11 km. Then he turns right and drives 6 km. Finally, he turns right, drives 4 km, and stops at point P. To reach point A again, how much distance (minimum distance) and in which direction should he drive?

- (A) 4 km, north (B) 3 km, north
(C) 3 km, south (D) 4 km, south

- Q100** In a certain coded language,
A+B means 'A is the sister of B',
A-B means 'A is the brother of B',
A×B means 'A is the wife of B', and
A÷B means 'A is the father of B'.
If 'F-H×L÷O+Y', then what is the relationship between F and Y?
(A) Father's father

(B) Mother's brother
(C) Mother's father

(D) Father's brother

Answer Key

Hints & Solutions

Q1 Text Solution:

- The **National Disaster Management Authority (NDMA)** is the apex body for **disaster management** in India.
- It was established under the **Disaster Management Act, 2005**.
- NDMA is responsible for **policy formulation, planning, and coordination** for disaster prevention, mitigation, and response at the national level.
- It lays down **guidelines** for disaster management to be followed by central and state authorities.
- Other bodies like **SDRF** operate at the **state level**, while **IRDA** and **NITI Aayog** have unrelated functions.

Hence, the correct answer is "**NDMA**."

Q2 Text Solution:

- The Suez Canal was opened in 1869, connecting the Mediterranean Sea with the Red Sea.
- It shortened the sea route between Europe and India by avoiding the long voyage around Africa.
- This significantly reduced travel time and shipping costs for British trade with India.
- As a result, Britain could tighten control over India's foreign trade and maritime communication.
- The canal strengthened Britain's economic and strategic dominance over its Indian colony.
- Other canals listed were regional or inland and did not affect international trade routes.

Hence, the correct answer is "**Suez Canal**."

Q3 Text Solution:

- Viswanathan Anand became India's first chess Grandmaster in 1988.
- His achievement marked a historic milestone for Indian chess on the global stage.

- Anand's success inspired a new generation of chess players in India.
- He later became a five-time World Chess Champion, bringing international recognition to the country.
- Other options achieved Grandmaster titles much later than 1988.
- Anand is widely regarded as one of the greatest chess players in the history of the game.

Hence, the correct answer is "**Viswanathan Anand**."

Q4 Text Solution:

- The Golden Quadrilateral is a major highway network connecting New Delhi, Mumbai, Chennai, and Kolkata.
- It forms a quadrilateral shape linking India's four largest metropolitan cities.
- The project was launched to improve road connectivity, trade, and economic integration.
- It significantly reduced travel time and transportation costs across regions.
- The Golden Quadrilateral is one of the largest highway projects undertaken in India.
- It plays a crucial role in national infrastructure development and logistics.

Hence, the correct answer is "**Golden Quadrilateral**."

Q5 Text Solution:

- Tolkappiyam is regarded as the oldest extant Tamil grammar text.
- It deals comprehensively with Tamil grammar, including phonology, morphology, syntax, and poetics.
- The text provides rules for letters (ezhuthu), words (sol), and meaning/poetics (porul).
- Tolkappiyam is traditionally attributed to Tolkappiyar and dates back to the early Sangam period.

- Other options like Manimekalai and Silappadikaram are epic literary works, not grammar texts.
- Kural (Tirukkural) is a classic ethical text, not a grammatical treatise.

Hence, the correct answer is "Tolkappiyam."

Q6 Text Solution:

- Wadge Bank is a submarine plateau situated in the Indian Ocean.
- It is located about 80 km off India's southern tip, near Kanyakumari (Cape Comorin).
- In May 2025, a hydrocarbon exploration project here was proposed under the Hydrocarbon Exploration and Licensing Policy (HELP).
- The proposal has faced opposition from fishermen due to concerns about fishing livelihoods.
- Wadge Bank is known for rich fishing grounds and ecological significance.
- Its geological features also make it prospective for hydrocarbons, prompting exploration interest.

Hence, the correct answer is "A submarine plateau in the Indian Ocean, approximately 80 km off the southern coast."

Q7 Text Solution:

- In 2025, **Indian Railways** began nationwide implementation of the **Kavach Automatic Train Protection (ATP)** system.
- The rollout covered about **3,500 km** of railway tracks with an investment of around **₹1,700 crore**.
- **Kavach** is an **indigenous safety system** designed to prevent train collisions and over-speeding.
- It automatically applies brakes if a driver fails to respond to danger signals.
- The system enhances **operational safety** and reduces human error in train operations.
- Kavach is a key step toward **modernising railway safety infrastructure** in India.

Hence, the correct answer is "Kavach Automatic Train Protection."

Q8 Text Solution:

- The powers of the Delhi Legislative Assembly are defined under the Constitution of India and Article 239AA.
- The Assembly can make laws on subjects in the State List and Concurrent List, except for a few reserved matters.
- Public order, along with police and land, remains under the control of the Union Government.
- Subjects like education, electricity, and public health fall within the Assembly's legislative competence.
- This special arrangement reflects Delhi's status as a National Capital Territory, not a full-fledged state.
- Hence, the Delhi Legislative Assembly does not have authority over public order.

Hence, the correct answer is "Public order."

Q9 Text Solution:

- The Right to Information (RTI) Act mandates a **time-bound response** to information requests.
- A public authority must provide the requested information **within 30 days** of receiving the application.
- This time limit helps ensure **transparency and accountability** in governance.
- If the information concerns **life or liberty**, it must be provided within **48 hours**.
- Failure to respond within the stipulated time can lead to **penalties on the concerned official**.
- The 30-day limit strengthens citizens' **right to access information** efficiently.

Hence, the correct answer is "30 days."

Q10 Text Solution:

- The **Indian Desert (Thar Desert)** lies mainly in western India.

- Its **eastern boundary** is largely influenced by the **Aravalli Hills**.
- The Aravalli range runs in a **southwest–northeast direction**, acting as a natural barrier.
- These hills affect the **distribution of rainfall**, limiting the eastward spread of desert conditions.
- Due to their presence, regions east of the Aravallis receive **comparatively more rainfall**.
- Hence, the Aravalli Hills play a crucial role in defining the **eastern limit of the Indian desert**.

Hence, the correct answer is "Aravalli Hills."

Q11 Text Solution:

- The **Kimberley Plateau** is located in **northwestern Australia**.
- It was formed mainly due to the **solidification of molten lava**, making it a volcanic plateau.
- The region is composed largely of **ancient basaltic lava flows**.
- Such plateaus are created when **lava spreads over large areas and cools** over time.
- Other options are plateaus located in **India (Malwa), North America (Columbia and Snake Rivers), and South America (Patagonian Plateau)**.
- Hence, among the given options, only the **Kimberley Plateau** belongs to Australia.

Hence, the correct answer is "Kimberley Plateau."

Q12 Text Solution:

- Genetics is the branch of science that deals with heredity and variation in organisms.
- It explains how traits are passed from parents to offspring through genes.
- Genetics helps in understanding similarities and differences among individuals of the same species.
- Concepts like genes, DNA, and chromosomes are central to genetics.

- It plays an important role in fields such as medicine, agriculture, and biotechnology.
- Other options like evolution and mutation are related concepts but do not fully define the study of heredity.

Hence, the correct answer is "Genetics."

Q13 Text Solution:

- The Multidimensional Poverty Index (MPI) measures poverty using multiple non-income indicators.
- It includes health indicators such as nutrition and child mortality.
- Education indicators like years of schooling and school attendance are part of MPI.
- Living standards indicators include access to electricity, sanitation, drinking water, housing, and cooking fuel.
- Per capita monthly expenditure is an income/consumption-based measure, not used in MPI.
- MPI provides a broader picture of poverty beyond income alone.

Hence, the correct answer is "Per capita monthly expenditure."

Q14 Text Solution:

- During the period 1947–1991, India's employment structure remained largely unchanged.
- The agriculture sector continued to employ the largest share of the workforce.
- A majority of the population depended on farming and allied activities for livelihood.
- Industrial and service sectors grew slowly and could not absorb surplus labour.
- Limited industrialization meant fewer employment opportunities outside agriculture.
- This reflects India's status as a predominantly agrarian economy during this phase.

Hence, the correct answer is "Agriculture."

Q15 Text Solution:

- In 2025, **Indian Space Research Organisation (ISRO)** announced the development of a **LOX–methane engine** for its Next Generation Launch Vehicle (NGLV).
- LOX stands for **Liquid Oxygen**, which is used as an oxidizer along with methane as fuel.
- Methane is considered a **cleaner and more efficient fuel** compared to traditional rocket propellants.
- LOX–methane engines allow for **better reusability**, aligning with ISRO's future launch vehicle goals.
- This engine technology supports **cost-effective and sustainable space missions**.
- The NGLV project aims to enhance India's **heavy-lift capability and competitiveness** in global launch services.

Hence, the correct answer is "LOX-methane engine."

Q16 Text Solution:

- The **2025 Southeast Asia Regional Forum** of the **Organisation for Economic Co-operation and Development (OECD)** was scheduled to be held in **Bangkok, Thailand**.
- Thailand is an important partner in the OECD's initiatives to **enhance regional cooperation** in Southeast Asia.
- The forum focuses on **economic growth, sustainability, and strategic partnerships** with OECD member countries.
- **Bangkok** serves as a major hub for **international diplomacy** in the region.
- The city has previously hosted several **global and regional conferences**, making it suitable for such high-level forums.
- The OECD Southeast Asia Regional Forum aims to **strengthen ties** between Southeast Asian nations and OECD members through dialogue and collaboration.

Hence, the correct answer is "Bangkok, Thailand."

Q17 Text Solution:

- The **Pir Panjal Range** forms a major **inner Himalayan range** in the northwestern Himalayas.
- It **separates the Kashmir Valley from the outer Himalayan ranges** and the plains of northern India.
- The range runs parallel to the **Greater Himalayas** to its south.
- Important passes like the **Banihal Pass** lie in the Pir Panjal range, connecting Kashmir with Jammu.
- The mountains act as a **climatic and geographical barrier**, influencing rainfall and vegetation in the valley.
- Due to its location, the Pir Panjal range holds **strategic and ecological importance**.

Hence, the correct answer is "Pir Panjal."

Q18 Text Solution:

- The Padma Awards are among the highest civilian honours in India.
- They are announced every year on the occasion of Republic Day.
- In 2025, a total of 139 individuals were conferred with Padma Awards.
- The awards are given in three categories: Padma Vibhushan, Padma Bhushan, and Padma Shri.
- These honours recognize distinguished contributions across diverse fields such as art, literature, education, sports, medicine, science, social work, and public affairs.
- The award ceremony is held at Rashtrapati Bhavan, where the honours are presented by the President of India.

Hence, the correct answer is "139."

Q19 Text Solution:

- In **May 2025**, **Indian Space Research Organisation (ISRO)** launched **PSLV-C61** carrying the **EOS-09** satellite.
- The mission could not achieve its objective due to an **anomaly in the third stage of the PSLV rocket**.

- Because of this technical issue, the **Earth observation satellite EOS-09 was not successfully deployed into orbit.**
- EOS-09 was intended to enhance **Earth observation and remote sensing capabilities.**
- ISRO conducted a detailed analysis to identify the cause and prevent future launch failures.
- Such reviews are part of ISRO's standard **post-mission evaluation and improvement process.**

Hence, the correct answer is "EOS-09."

Q20 Text Solution:

- The **19th Pravasi Bharatiya Divas (PBD)** convention was held in **January 2025.**
- It was hosted in **Bhubaneswar**, the capital city of Odisha.
- Pravasi Bharatiya Divas is celebrated to **honour the contribution of the Indian diaspora** to India's development.
- The event provides a platform for **engagement between India and overseas Indians.**
- Hosting PBD in Bhubaneswar highlighted **eastern India's cultural and economic significance.**
- The convention strengthens **global connections with Non-Resident Indians (NRIs)** and Persons of Indian Origin (PIOs).

Hence, the correct answer is "Bhubaneswar."

Q21 Text Solution:

- The practice of **Sati** involved a widow immolating herself on her husband's funeral pyre.
- It was officially banned in **1829** during the tenure of **Lord William Bentinck**, the Governor-General of India.
- The ban was enforced through the **Bengal Sati Regulation, 1829.**
- Social reformers like **Raja Ram Mohan Roy** strongly supported the abolition of Sati.
- The decision marked a significant step toward **social reform and protection of women's**

rights in colonial India.

- The abolition reflected growing awareness against **inhuman and regressive practices.**

Hence, the correct answer is "Sati."

Q22 Text Solution:

- Urban transportation infrastructure includes systems meant for **movement of people and goods** within cities.
- **Highways and roads** play an important role in urban and inter-urban transport.
- **Metro systems** provide fast and efficient mass transit in urban areas.
- **Rail networks** support suburban and city-level transportation.
- **Irrigation canals** are designed for **agricultural water supply**, not transportation within cities.

Hence, the correct answer is "Irrigation canals."

Q23 Text Solution:

- Windows is a widely used operating system for computers and laptops.
- Unix is a powerful multi-user operating system used mainly in servers and workstations.
- Linux is an open-source operating system commonly used on computers, laptops, and servers.
- Android is primarily designed for mobile devices such as smartphones and tablets.
- Although Android is based on the Linux kernel, it is not commonly used as a standard OS for computers and laptops.

Hence, the correct answer is "Android."

Q24 Text Solution:

- India's **Monetary Policy Committee (MPC)** was constituted under the **RBI Act, 1934 (amended in 2016).**
- The committee consists of **six members** in total.
- **Three members** are from the **Reserve Bank of India (RBI)**, including the Governor.
- **Three external members** are appointed by the **Government of India.**

- The MPC is responsible for **deciding the policy repo rate** to control inflation.
- In case of a tie, the **RBI Governor has a casting vote**.

Hence, the correct answer is "6."

Q25 Text Solution:

- The India Forecasting System (BFS) was launched in May 2025 to improve weather prediction accuracy.
- BFS operates with a spatial resolution of 6 kilometers, enabling more localized forecasts.
- It is developed and operated by the India Meteorological Department (IMD).
- Higher spatial resolution helps in better prediction of extreme weather events like heavy rainfall and cyclones.
- BFS marks a significant upgrade over earlier models with coarser resolutions.
- The system strengthens India's early warning and disaster management capabilities.

Hence, the correct answer is "6 kilometers."

Q26 Text Solution:

- The **Rowlatt Satyagraha (1919)** witnessed its **most intense violence in Punjab**.
- The British government imposed **martial law in Punjab** to suppress public protests.
- Cities like **Amritsar and Lahore** became major centres of resistance against the Rowlatt Act.
- The brutal **Jallianwala Bagh massacre** occurred during this period under martial law.
- Civil liberties were suspended, and people faced **harsh repression and military control**.
- These events deeply shocked the nation and strengthened the **Indian freedom movement**.

Hence, the correct answer is "Punjab."

Q27 Text Solution:

- **Tata Steel** became the **first company in India** to develop steel pipes suitable for **hydrogen transportation**.
- Hydrogen transport requires **specialized steel** that can resist **hydrogen embrittlement** and

leakage.

- The development supports India's push towards a **green hydrogen economy**.
- These pipes are crucial for building **safe and efficient hydrogen infrastructure**.
- The innovation aligns with India's **energy transition and decarbonization goals**.
- It also strengthens indigenous manufacturing under the **Atmanirbhar Bharat** initiatives.

Hence, the correct answer is "Tata Steel."

Q28 Text Solution:

- The book "*PMO: Prime Minister's Office through the Years*" was released in **May 2025**.
- It is authored by **Himanshu Roy**, a former IAS officer.
- The book provides an **institutional and historical account** of the functioning of the Prime Minister's Office (PMO).
- It traces the **evolution of the PMO** across different Prime Ministers and political phases.
- The author draws from **administrative experience and archival sources** to present insights.
- The work helps readers understand the **role, structure, and influence** of the PMO in Indian governance.

Hence, the correct answer is "Himanshu Roy."

Q29 Text Solution:

- **Cooperative societies** are mentioned under the **State List (List II)** in the Seventh Schedule of the Constitution of India.
- Entry **32 of the State List** gives states the power to legislate on incorporation, regulation, and winding up of cooperative societies.
- This allocation reflects the **federal structure** of the Constitution, giving autonomy to states in managing cooperatives.
- The **97th Constitutional Amendment Act, 2011** strengthened cooperatives but did not remove them from the State List.

- Only **multi-state cooperative societies** come under the jurisdiction of Parliament through separate legislation.
- Thus, legislative control over most cooperatives primarily rests with the **state governments**.

Hence, the correct answer is "It is a subject in the State List."

Q30 Text Solution:

- The **Svetambara sect of Jainism** recognizes a well-defined collection of sacred texts known as **Agamas**.
- The Svetambara canon consists of **45 Agamas** in total.
- These texts are believed to be based on the teachings of **Lord Mahavira**, transmitted orally by his disciples.
- The Agamas cover topics such as **ethics, philosophy, monastic rules, and conduct of lay followers**.
- They are written mainly in the **Ardhamagadhi Prakrit** language.
- The preservation of these texts distinguishes the Svetambara tradition from the Digambara sect, which does not accept the Agamas as fully preserved.

Hence, the correct answer is "45."

Q31 Text Solution:

- The Ministry of Defence has planned a major procurement of **500 Invar anti-tank guided missiles (ATGMs)**.
- The total value of this defence deal is estimated between **₹2,000 crore and ₹3,000 crore**.
- The contract will be awarded to **Bharat Dynamics Limited**, a leading defence PSU.
- Bharat Dynamics Limited specializes in the **manufacture of missile systems and allied defence equipment**.
- The Invar ATGM enhances the **anti-armour capability** of India's armed forces.

- This order supports the government's push for **indigenous defence production** under *Atmanirbhar Bharat*.

Hence, the correct answer is "Bharat Dynamics Limited."

Q32 Text Solution:

- The **1962 India–China War** was mainly fought along the **high-altitude Himalayan region**.
- Major conflict zones included **Ladakh (Aksai Chin)** in the western sector and **NEFA (present-day Arunachal Pradesh)** in the eastern sector.
- The rugged **mountainous terrain**, extreme cold, and high altitude greatly influenced military operations.
- Border disputes along the **McMahon Line** were a key reason for clashes in the eastern Himalayas.
- The difficult geography posed **logistical and strategic challenges** for both sides, especially India.
- The war highlighted the **strategic importance of the Himalayan Range** in India's northern defence.

Hence, the correct answer is "Himalayan Range."

Q33 Text Solution:

- **Lanthanoids** are a series of 14 elements from **Cerium (Ce) to Lutetium (Lu)** in the periodic table.
- These elements are also known as **rare earth elements**.
- **Cerium** is the **first element** of the lanthanoid series.
- Scandium and Yttrium are transition elements, not lanthanoids.
- Actinium belongs to the **actinoid series**, not the lanthanoids.
- Lanthanoids are commonly used in **magnets, catalysts, and electronic devices**.

Hence, the correct answer is "Cerium."

Q34 Text Solution:

- **GUI** stands for **Graphical User Interface**.
- It allows users to interact with the operating system using **graphics such as icons, windows, and menus**.
- A GUI makes computers **easy to use**, especially for beginners.
- Users can perform tasks using a **mouse or touch input** instead of typing commands.
- Most modern operating systems like **Windows, macOS, and Linux** use GUIs.
- GUI improves **user experience** by making interaction more intuitive and visual.

Hence, the correct answer is "**Graphical User Interface**."

Q35 Text Solution:

- The Second Jain Council was held at Vallabhi (Gujarat) in 512 CE.
- It was conducted under the leadership of Devardhi Kshamashraman.
- The main aim of the council was to compile and preserve Jain canonical texts, which were in danger due to the weakening oral tradition.
- During this council, the Jain Agamas were written down and codified for the first time.
- This step ensured the continuity and preservation of Jain teachings for future generations.
- The council also worked to resolve doctrinal differences and bring uniformity, as Jainism had split into Digambara and Shwetambara sects.

Hence, the correct answer is "**Second**."

Q36 Text Solution:

- The Digital India Financial Literacy Mission was launched by the Reserve Bank of India (RBI) in 2025.
- The mission focuses on improving public awareness about digital financial services.
- A key objective is to educate citizens on online fraud prevention and cyber safety.

- It promotes safe usage of digital payment systems such as UPI and online banking.
- The initiative supports the government's vision of a secure and inclusive digital economy.
- RBI plays a central role in strengthening financial literacy and consumer protection in India.

Hence, the correct answer is "**Reserve Bank of India (RBI)**."

Q37 Text Solution:

- **Indonesia** became a **full member of BRICS** in **January 2025**.
- Its inclusion expanded BRICS' presence in **Southeast Asia**.
- Indonesia is one of the **largest emerging economies** in the region.
- The membership strengthens BRICS' role in **global economic cooperation**.
- Indonesia's entry reflects the grouping's strategy of **broadening representation** among developing economies.
- BRICS continues to expand to enhance **South-South cooperation**.

Hence, the correct answer is "**Indonesia**."

Q38 Text Solution:

- The **101st Constitutional Amendment Act, 2016** introduced the **Goods and Services Tax (GST)** in India.
- GST aimed to create a **single, unified indirect tax system** across the country.
- It replaced multiple indirect taxes such as **VAT, excise duty, and service tax**.
- The amendment provided for the creation of the **GST Council** to make recommendations on GST-related matters.
- GST helped in reducing the **cascading effect of taxes**.
- It improved **ease of doing business** and strengthened cooperative federalism.

Hence, the correct answer is "**101st Amendment Act, 2016**."

Q39 Text Solution:

- **Article 368** of the Indian Constitution lays down the **procedure for amending the Constitution**.
- It explains how amendments can be initiated and passed by **Parliament**.
- Some amendments require a **special majority**, while others also need **ratification by states**.
- This article ensures a **balance between flexibility and rigidity** in the Constitution.
- It helps the Constitution adapt to **changing social and political needs**.
- Article 368 plays a key role in maintaining the **democratic framework** of India.

Hence, the correct answer is "Article 368."

Q40 Text Solution:

- **Huygens' Principle** states that each point on a wavefront behaves like a source of secondary wavelets.
- These secondary wavelets spread out in all directions with the same speed as the wave.
- The **new wavefront** is formed by the envelope (common tangent) of these wavelets.
- This principle helps explain **reflection, refraction, and diffraction** of waves.
- It is widely used in understanding the behavior of **light and other waves**.
- Huygens' Principle provides a simple geometrical method to analyze wave propagation.

Hence, the correct answer is "Huygens' Principle."

Q41 Text Solution:

Sum of the ratio = $16 + 85 + 54 = 155$

Total profit = 3750

Difference between the shares of Y and Z

= $85 - 54$

= 31

Since profit is divided in the ratio of investment,

Difference in profit = $3750 \times (31 / 155) = 750$

Hence, Option A is the correct answer.

Q42 Text Solution:

Diagonals of a rectangle bisect each other and are equal in length.

Adjacent angles formed by diagonals are equal, and each diagonal bisects the vertex angles.

$$\angle OPS = 90^\circ - (1/2 \times \angle QOR)$$

$$\angle QOR = 36^\circ$$

$$\Rightarrow 1/2 \times \angle QOR = 1/2 \times 36^\circ = 18^\circ$$

$$\Rightarrow \angle OPS = 90^\circ - 18^\circ = 72^\circ$$

Hence, Option D is the correct answer.

Q43 Text Solution:

Number = 769501

Options = 105, 96, 90, 97

Formula Used:

Divisibility check $\Rightarrow$ Number $\div$ Divisor, if remainder = 0 $\Rightarrow$ divisible

Calculation:

$\Rightarrow 769501 \div 105 = 7328$ remainder 1 $\Rightarrow$ not divisible

$\Rightarrow 769501 \div 96 = 8015$ remainder 61 $\Rightarrow$ not divisible

$\Rightarrow 769501 \div 90 = 8550$ remainder 1 $\Rightarrow$ not divisible

$\Rightarrow 769501 \div 97 = 7933$ remainder 0 $\Rightarrow$ divisible

$\therefore$ The correct answer is 97.

Hence, Option D is the correct answer.

Q44 Text Solution:

Distance covered by the bus = 36×5

$\Rightarrow$ Distance = 180 km

$\Rightarrow$ Required Speed = Distance $\div$ Time

$\Rightarrow$ Required Speed = $180 \div 10$

$\Rightarrow$ Required Speed = 18 km/hr

Hence, Option A is the correct answer.

Q45 Text Solution:

Number = 716710501

Formula Used:

Divisible by 16 $\Rightarrow$ last 4 digits divisible by 16

Divisible by 19 $\Rightarrow$ check remainder by division

Divisible by 20 $\Rightarrow$ last 2 digits = 00

Divisible by 13 $\Rightarrow$ check by division or exact multiplication

Calculation:

$\Rightarrow$ Check 16: last 4 digits = 0501 = 501; $501 \div 16 = 31$ remainder 5 $\Rightarrow$ not divisible

$\Rightarrow$ Check 19: $19 \times 37,721,605 = 716,710,495 \Rightarrow$
 remainder = $716,710,501 - 716,710,495 = 6 \Rightarrow$ not
 divisible
 $\Rightarrow$ Check 20: last 2 digits = $01 \neq 00 \Rightarrow$ not
 divisible
 $\Rightarrow$ Check 13: $13 \times 55,131,577 = 13 \times (55,131,577) =$
 $551,315,770 + 165,394,731 = 716,710,501 \Rightarrow$ exact
 $\therefore$ The correct answer is 13.

Q46 Text Solution:

Length of cuboid = 18 m
 Breadth of cuboid = 12 m
 Height of cuboid = 9 m
 Total Surface Area (TSA) = $2 \times (\text{Length} \times \text{Breadth} +$
 $\text{Breadth} \times \text{Height} + \text{Height} \times \text{Length})$
 $\Rightarrow \text{TSA} = 2 \times (18 \times 12 + 12 \times 9 + 9 \times 18)$
 $\Rightarrow \text{TSA} = 2 \times (216 + 108 + 162)$
 $\Rightarrow \text{TSA} = 2 \times 486$
 $\Rightarrow \text{TSA} = 972 \text{ m}^2$
 Hence, Option A is the correct answer.

Q47 Text Solution:

Percentage = 65%
 Number = 65
 Fraction = $3/5$
 Number = 25
 $65\% \text{ of } 65 = (65 \div 100) \times 65$
 $\Rightarrow 65 \times 0.65 = 42.25$
 $\Rightarrow (3 \div 5) \text{ of } 25 = (3 \div 5) \times 25$
 $\Rightarrow 15$
 $\Rightarrow \text{Difference} = 42.25 - 15$
 $\Rightarrow 27.25$

Hence, Option A is the correct answer.

Q48 Text Solution:

$\sqrt{(289)} + \sqrt{(0.0324)} - \sqrt{(7.29)}$
 $\Rightarrow 17 + 0.18 - 2.7$
 $\Rightarrow 17.18 - 2.7 = 14.48$

Hence, Option B is the correct answer.

Q49 Text Solution:

$A = 8, B = 5$
 $\Rightarrow \text{Equivalent discount} = 8 + 5 - (8 \times 5 \div 100)$
 $\Rightarrow \text{Equivalent discount} = 13 - (40 \div 100)$
 $\Rightarrow \text{Equivalent discount} = 13 - 0.4 = 12.6\%$
 Hence, Option D is the correct answer,

Q50 Text Solution:

Expression: $x(3x - 6) + 5(x^2 - 4) + 19$

Formula Used:

$$a(b + c) = ab + ac$$

$$(a + b) + c = a + (b + c)$$

Calculation:

$$\Rightarrow x(3x - 6) + 5(x^2 - 4) + 19$$

$$\Rightarrow 3x^2 - 6x + 5x^2 - 20 + 19$$

$$\Rightarrow (3x^2 + 5x^2) - 6x + (-20 + 19)$$

$$\Rightarrow 8x^2 - 6x - 1$$

Hence, Option D is the correct answer.

Q51 Text Solution:

Let votes polled = 100
 $\Rightarrow \text{Valid votes} = 100 \times 82/100 = 82$
 $\Rightarrow \text{Winner's valid votes} = 82 \times 51/100 = 41.82$
 $\Rightarrow \text{Loser's valid votes} = 82 \times 49/100 = 40.18$
 $\Rightarrow \text{Margin per 100 polled} = 41.82 - 40.18 = 1.64$
 $\Rightarrow 1.64 \text{ (per 100 polled) corresponds to } 1845$
 votes
 $\Rightarrow \text{Number of 100-polled units} = 1845 \div 1.64 =$
 1125
 $\Rightarrow \text{Total votes polled} = 1125 \times 100 = 112500$
 $\Rightarrow \text{Registered voters } R = \text{Votes polled} \div 90/100 =$
 $112500 \div 0.9$
 $\Rightarrow R = 112500 \times (10 \div 9) = 125000$
 Hence, Option D is the correct answer.

Q52 Text Solution:

Purchase price before transportation = $8000 \times (1$
 $- 20/100) \times (1 - 25/100)$
 $\Rightarrow = 8000 \times 0.8 \times 0.75$
 $\Rightarrow = 8000 \times 0.6 = 4800$
 $\Rightarrow \text{Purchase price including transportation} =$
 $4800 + 300 = 5100$
 $\Rightarrow \text{Profit} = 8000 - 5100 = 2900$
 $\Rightarrow \text{Profit \%} = (2900 \div 5100) \times 100$
 $\Rightarrow 56 \frac{44}{51}\%$ (in mixed fraction form)

Q53 Text Solution:

Let the cost price (CP) of 1 book = ₹1.
 $\Rightarrow \text{Total CP of 11 books} = 11 \times ₹1 = ₹11.$
 $\Rightarrow \text{Total SP of 22 books} = ₹11.$
 $\Rightarrow \text{SP of 1 book} = ₹11 \div 22 = ₹0.5.$
 $\Rightarrow \text{Loss per book} = \text{CP of 1 book} - \text{SP of 1 book}$
 $\Rightarrow \text{Loss per book} = ₹1 - ₹0.5 = ₹0.5.$
 $\Rightarrow \text{Loss Percentage} = [(\text{Loss} \div \text{CP}) \times 100]$

$$\Rightarrow \text{Loss Percentage} = [(\text{₹}0.5 \div \text{₹}1) \times 100]$$

$$\Rightarrow \text{Loss Percentage} = 50\%.$$

Hence, Option A is the correct answer.

Q54 Text Solution:

Let the two consecutive natural numbers be x and $(x + 1)$.

Product of two consecutive natural numbers = $x \times (x + 1)$.

$$\Rightarrow x \times (x + 1) = 870$$

$$\Rightarrow x^2 + x = 870$$

$$\Rightarrow x^2 + x - 870 = 0$$

$$\Rightarrow x^2 + 30x - 29x - 870 = 0$$

$$\Rightarrow x(x + 30) - 29(x + 30) = 0$$

$$\Rightarrow (x - 29)(x + 30) = 0$$

$\Rightarrow x = 29$ or $x = -30$ (discarding -30 as x is a natural number)

$$\Rightarrow x = 29$$

Greater of the two consecutive natural numbers

$$= x + 1 = 29 + 1$$

$$\Rightarrow 30$$

Hence, Option B is the correct answer.

Q55 Text Solution:

First 154 odd natural numbers.

Formula Used:

Average of first n odd natural numbers = n

Sum of first n odd natural numbers = n^2

Calculation:

$$\Rightarrow n = 154$$

$$\Rightarrow \text{Average} = n$$

$$\Rightarrow \text{Average} = 154$$

Hence, Option A is the correct answer.

Q56 Text Solution:

Principal (P) = ₹1,200

Rate of Interest (R) = 4% per month

Time (T) = 10 months

Simple Interest (SI) = $(P \times R \times T) / 100$

$$\Rightarrow SI = (1,200 \times 4 \times 10) / 100$$

$$\Rightarrow SI = (48,000) / 100$$

$$\Rightarrow SI = ₹480$$

Hence, Option D is the correct answer.

Q57 Text Solution:

The LCM of two numbers is seven times their HCF.

The difference between the HCF and LCM is 222.

We know that,

$$\text{LCM} = 7 \times \text{HCF}$$

$$\text{LCM} - \text{HCF} = 222$$

$$\text{Product of two numbers} = \text{LCM} \times \text{HCF}$$

Therefore:

$$\Rightarrow \text{LCM} = 7 \times \text{HCF}$$

$$\Rightarrow \text{LCM} - \text{HCF} = 222$$

$$\Rightarrow (7 \times \text{HCF}) - \text{HCF} = 222$$

$$\Rightarrow 6 \times \text{HCF} = 222$$

$$\Rightarrow \text{HCF} = 222 \div 6$$

$$\Rightarrow \text{HCF} = 37$$

$$\Rightarrow \text{LCM} = 7 \times 37$$

$$\Rightarrow \text{LCM} = 259$$

Product of two numbers = $\text{LCM} \times \text{HCF}$

$$\Rightarrow \text{Product} = 259 \times 37$$

$$\Rightarrow \text{Product} = 9583$$

Hence, Option C is the correct answer.

Q58 Text Solution:

$$(-9) - (-60) \div (-6) + (-4) \times 6$$

$$\Rightarrow (-9) - [(-60) \div (-6)] + [(-4) \times 6]$$

$$\Rightarrow (-9) - [10] + [-24]$$

$$\Rightarrow -9 - 10 - 24$$

$$\Rightarrow -43$$

Hence, Option D is the correct answer.

Q59 Text Solution:

Let son's age 7 years ago = x .

Father's age 7 years ago = $20 + 2x$.

Current son's age = $x + 7$.

Current father's age = $(20 + 2x) + 7 = 27 + 2x$.

After y years, father's age = son's age $\times 2$:

$$\Rightarrow (27 + 2x + y) = 2 \times (x + 7 + y).$$

$$\Rightarrow 27 + 2x + y = 2x + 14 + 2y.$$

$$\Rightarrow 27 - 14 = y.$$

$$\Rightarrow y = 13.$$

Hence, Option B is the correct answer.

Q60 Text Solution:

Mean proportional = $\sqrt{(16 \times 256)}$

$$\Rightarrow \text{Mean proportional} = \sqrt{4096}$$

$$\Rightarrow \text{Mean proportional} = 64$$

Hence, Option C is the correct answer.

Q61 Text Solution:

Time for first part = $\text{Distance 1} \div \text{Speed 1}$

$\Rightarrow$ Time for first part = $168 \div 21$
 $\Rightarrow$ Time for first part = 8 hours
 $\Rightarrow$ Time for second part = Distance 2 $\div$ Speed 2
 $\Rightarrow$ Time for second part = $100 \div 20$
 $\Rightarrow$ Time for second part = 5 hours
 $\Rightarrow$ Time for third part = Distance 3 $\div$ Speed 3
 $\Rightarrow$ Time for third part = $371 \div 53$
 $\Rightarrow$ Time for third part = 7 hours
 $\Rightarrow$ Total time = Time for first part + Time for second part + Time for third part
 $\Rightarrow$ Total time = $8 + 5 + 7$
 $\Rightarrow$ Total time = 20 hours
 $\Rightarrow$ Total distance = Distance 1 + Distance 2 + Distance 3
 $\Rightarrow$ Total distance = $168 + 100 + 371$
 $\Rightarrow$ Total distance = 639 km
 $\Rightarrow$ Average speed = Total distance $\div$ Total time
 $\Rightarrow$ Average speed = $639 \div 20$
 $\Rightarrow$ Average speed = 31.95 km/hr
 Hence, Option A is the correct answer.

Q62 Text Solution:

Rate of 1 man = $1 \div (5 \times 16) = 1 \div 80$
 $\Rightarrow$ Rate of 1 woman = $1 \div (3 \times 15) = 1 \div 45$
 $\Rightarrow$ Rate of 4 men = $4 \times (1 \div 80) = 4 \div 80$
 $\Rightarrow$ Rate of 9 women = $9 \times (1 \div 45) = 9 \div 45$
 $\Rightarrow$ Denominators 45 and 80; $45 = 3^2 \times 5$, $80 = 2^4 \times 5$
 $\Rightarrow$ LCM(45,80) = $2^4 \times 3^2 \times 5 = 720$
 $\Rightarrow 9 \div 45 = (9 \times 16) \div 720 = 144 \div 720$
 $\Rightarrow 4 \div 80 = (4 \times 9) \div 720 = 36 \div 720$
 $\Rightarrow$ Total rate = $(144 + 36) \div 720 = 180 \div 720 = 1 \div 4$
 $\Rightarrow$ Time = Work $\div$ Total rate = $1 \div (1 \div 4) = 4$ days
 Hence, Option C is the correct answer.

Q63 Text Solution:

Count the frequency of each value:
 12 appears 3 times
 14 appears 2 times
 15 appears 1 time
 16 appears 1 time
 10 appears 1 time
 19 appears 1 time
 11 appears 1 time
 $\Rightarrow$ The mode is the value with the highest frequency.

$\Rightarrow$ 12 appears the most (3 times).

$\therefore$ The correct answer is 12.

Hence, Option D is the correct answer.

Q64 Text Solution:

Density = 15 g/cm^3
 Internal radius = 8 cm
 External radius = 11 cm
 Take $\pi = 22/7$
 Volume of shell = $(4 \div 3) \times \pi \times (R^3 - r^3)$
 Mass = Density $\times$ Volume
 $1 \text{ kg} = 1000 \text{ g}$
 $\Rightarrow R^3 - r^3 = 11^3 - 8^3 = 1331 - 512 = 819$
 $\Rightarrow$ Volume = $(4 \div 3) \times (22 \div 7) \times 819$
 $\Rightarrow$ Volume = $(4 \times 22 \times 819) \div (3 \times 7) = (88 \times 819) \div 21$
 $\Rightarrow 88 \times 819 = 72,072$
 $\Rightarrow$ Volume = $72,072 \div 21 = 3,432 \text{ cm}^3$
 $\Rightarrow$ Mass = Density $\times$ Volume = $15 \times 3,432 = 51,480 \text{ g}$
 $\Rightarrow$ Mass in kg = $51,480 \div 1000 = 51.48 \text{ kg}$
 Hence, Option D is the correct answer.

Q65 Text Solution:

$$\begin{aligned}
 & \frac{5}{2} + \left(\frac{1}{1 + \frac{3}{8}} \right) - \frac{3}{5} \\
 &= \frac{5}{2} + \left(\frac{1}{\frac{11}{8}} \right) - \frac{3}{5} \\
 &= \frac{5}{2} + \frac{8}{11} - \frac{3}{5} \\
 &= \frac{275 + 80 - 66}{110} \\
 &= \frac{289}{110} \\
 &\text{अतः, विकल्प D सही उत्तर है।}
 \end{aligned}$$

Q66 Text Solution:

Let broken height = h ft; upper part = $18 - h$ ft
 $\Rightarrow h = (18 - h) \times \sin 30^\circ$
 $\Rightarrow \sin 30^\circ = 1 \div 2$
 $\Rightarrow h = (18 - h) \times (1 \div 2)$
 $\Rightarrow h = (18 - h) \div 2$
 $\Rightarrow 2 \times h = 18 - h$
 $\Rightarrow 3 \times h = 18$
 $\Rightarrow h = 18 \div 3 = 6$
 Hence, Option B is the correct answer.

Q67 Text Solution:

Total mirrors = 92
 Total cost = ₹92
 Broken mirrors = 35
 Selling price (SP) = ₹4.40 each
 $\Rightarrow$ Remaining mirrors = $92 - 35 = 57$
 $\Rightarrow$ Total revenue = $57 \times 4.40 = 250.80$
 $\Rightarrow$ Profit = $250.80 - 92 = 158.80$
 Hence, Option C is the correct answer.

Q68 Text Solution:

Pipe A fills tank in 12 hours
 Pipe B fills tank in 30 hours
 Pipe C fills tank in 18 hours
 $\Rightarrow$ Rate of A = $1 \div 12$
 $\Rightarrow$ Rate of B = $1 \div 30$
 $\Rightarrow$ Rate of C = $1 \div 18$
 $\Rightarrow$ LCM of 12, 30, and 18 = 180
 $\Rightarrow 1/12 = 15/180, 1/30 = 6/180, 1/18 = 10/180$
 $\Rightarrow$ Combined rate = $(15 + 6 + 10) \div 180 = 31 \div 180$
 $\Rightarrow$ Total time = $1 \div (31 \div 180) = 180 \div 31 = 5 \frac{25}{31}$
 hours.
 Hence, Option D is the correct answer.

Q69 Text Solution:

$I_1 = ₹9,204$
 $R_1 = 6.4\% \text{ pa}$
 $T_1 = 6\frac{1}{2} \text{ years} = 6.5 \text{ years}$
 $R_2 = 7.6\% \text{ pa}$
 $T_2 = 6\frac{2}{3} \text{ years} = 20/3 \text{ years}$
 $SI = (P \times R \times T) \div 100$
 Amount = $P + SI$
 $\Rightarrow P = SI_1 \div (R_1 \times T_1 \div 100)$
 $\Rightarrow P = 9204 \div (6.4 \times 6.5 \div 100)$
 $\Rightarrow P = 9204 \div (41.6 \div 100) = 9204 \times 100 \div 41.6$
 $\Rightarrow P = 920400 \div 41.6 = 22125$
 $\Rightarrow SI_2 = (P \times R_2 \times T_2) \div 100 = (22125 \times 7.6 \times 20/3) \div 100$
 $\Rightarrow SI_2 = 22125 \times 152 \div 300$
 $\Rightarrow 22125 \times 152 = 3,363,000$
 $\Rightarrow SI_2 = 3,363,000 \div 300 = 11,210$
 $\Rightarrow$ Amount = $P + SI_2 = 22,125 + 11,210 = 33,335$

Q70 Text Solution:

Let common value = $k \Rightarrow A = k \div 3, B = k \div 9, C = k \div 4$
 $\Rightarrow$ Sum = $A + B + C = k \times (1/3 + 1/9 + 1/4)$

$\Rightarrow$ Let $3A = 9B = 4C = k$
 $\Rightarrow A = k \div 3, B = k \div 9, C = k \div 4$
 $\Rightarrow 1/3 + 1/9 + 1/4 = 12/36 + 4/36 + 9/36 = 25/36$
 $\Rightarrow$ Sum = $k \times 25/36 = 44,200$
 $\Rightarrow k = 44,200 \times 36 \div 25 = 44,200 \div 25 \times 36$
 $\Rightarrow 44,200 \div 25 = 1,768$
 $\Rightarrow k = 1,768 \times 36 = 63,648$
 $\Rightarrow A = k \div 3 = 63,648 \div 3 = 21,216$
 Hence, Option D is the correct answer.

Q71 Text Solution:

Here, the logic is as follows:

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

H $\xrightarrow{-2}$ F $\xrightarrow{-2}$ D $\xrightarrow{-2}$ B $\xrightarrow{-2}$ Z
 K $\xrightarrow{-2}$ I $\xrightarrow{-2}$ G $\xrightarrow{-2}$ E $\xrightarrow{-2}$ C
 B $\xrightarrow{-2}$ Z $\xrightarrow{-2}$ X $\xrightarrow{-2}$ V $\xrightarrow{-2}$ T
 11 $\longrightarrow$ 19 $\longrightarrow$ 27 $\longrightarrow$ 35 $\longrightarrow$ 43

Hence, ZCT 43 is the correct answer.

Q72 Text Solution:

Here, the logic is as follows:

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

K H I G & D A B Z
 $\downarrow -3$ $\downarrow -3$ $\downarrow -3$ $\downarrow -3$ $\downarrow -3$ $\downarrow -3$ $\downarrow -3$ $\downarrow -3$
 H E F D A X Y W
 B Y Z X
 $\downarrow -3$ $\downarrow -3$ $\downarrow -3$ $\downarrow -3$
 Y V W U

Hence, YVWU is the correct answer.

Q73 Text Solution:

According to the given information,

V is sitting second to the right of Y.
Y is sitting immediately to the left of T.
X is sitting second to the left of W.

As we can see from final arrangement, there are three people are sitting between Z and V when counted from the left of V.
Hence, Three is the correct answer.

Q74 Text Solution:

Here, the logic is as follows:

The code of 'G' = '7'

Hence, 7 is the correct answer.

Q75 Text Solution:

The given series is:

391, 392, 396, 405, 421, ?

Here, the logic is as follows:

Hence, 446 is the correct answer.

Q76 Text Solution:

Given numbers (Left to Right):

1338, 2325, 3627, 5513, 1764

Step 1: Reverse all digits of each number

1338 → 8331

2325 → 5232

3627 → 7263

5513 → 3155

1764 → 4671

Step 2: Arrange reversed numbers in ascending order

Smallest → Largest

3155, 4671, 5232, 7263, 8331

Step 3: Identify required numbers

Smallest number = 3155

Second largest number = 7263

Step 4: Find the second digit (from left)

Second digit of **7263** = 2

Second digit of **3155** = 1

Step 5: Multiply the digits

$2 \times 1 = 2$

Hence, 2 is the correct answer.

Q77 Text Solution:

Given number: 6854376

Rule:

Odd digit → add 1

Even digit → subtract 4

Now apply the rule to each digit:

6 (even) → $6 - 4 = 2$

8 (even) → $8 - 4 = 4$

5 (odd) → $5 + 1 = 6$

4 (even) → $4 - 4 = 0$

3 (odd) → $3 + 1 = 4$

7 (odd) → $7 + 1 = 8$

6 (even) → $6 - 4 = 2$

New number formed:

2, 4, 6, 0, 4, 8, 2

Now check which digits appear more than once:

2 → appears twice

4 → appears twice

So, 2 digits appear more than once.

Hence, 2 is the correct answer.

Q78 Text Solution:

Here, the logic is as follows:

Here, the same logic is followed in all option except option(D)

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

Let's see from option

A ROK R $\xrightarrow{-3}$ O $\xrightarrow{-4}$ K

B FCY F $\xrightarrow{-3}$ C $\xrightarrow{-4}$ Y

C MJF M $\xrightarrow{-3}$ J $\xrightarrow{-4}$ F

D LID L $\xrightarrow{-3}$ I $\xrightarrow{-5}$ D

Hence, LID is the correct answer.

Q79 Text Solution:

Series given:

5 8 * > 4 1 4 \ 4 \$ \$ ^ 3 ? 5 2 % / > 9 2 4

Condition to check

We need numbers which are:

Immediately preceded by a symbol, and

Immediately followed by another number

5 8 * **> 4 1** 4 \ 4 \$ \$ ^ 3 **? 5 2** % / **> 9 2 4**

There are three numbers are there, each of which is immediately preceded by a symbol and immediately followed by another number.

Hence, Three is the correct answer.

Q80 Text Solution:

Here, the logic is as follows

Let's look at the given pairs carefully

78 → 39

84 → 42

logic: The second number = first number ÷ 2

Check:

78 ÷ 2 = 39 ✓

84 ÷ 2 = 42 ✓

So the rule is divide the number by 2.

Now check the options:

A) 58 ÷ 2 = 29 ✗ (given 19)

B) 94 ÷ 2 = 47 ✗ (given 48)

C) 66 ÷ 2 = 33 ✓

D) 52 ÷ 2 = 26 ✗ (given 23)

Hence, 66,33 is the correct answer.

Q81 Text Solution:

Here, the logic is as follows:

'keep **your** goal' → 'yt ru **kj**'

'mind **your** business' → '**kj** gb mi'

The code of 'your' = 'kj'

Hence, kj is the correct answer.

Q82 Text Solution:

The given equation is:

40×4+12÷6-4=?

BODMAS table,

B	कोष्ठक (Bracket)
O	का (Of) या घातांक (Order)
D	भाग (Division)
M	गुणा (Multiplication)
A	योग (Addition)
S	अन्तर (Subtraction)

After interchanging the sign the new equation becomes

40÷4-12+6×4=?

Now from the BODMAS rule,

40÷4-12+6×4=?

10-12+6×4=?

10-12+24=?

34-12=?

?=22

Hence, 22 is the correct answer.

Q83 Text Solution:

Here, the same logic is followed in all option except option(B)

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

Let's see from option

VOU

V - 7 = O, O + 6 = U

OHM

O - 7 = H, H + 5 = M

RKQ

$$R - 7 = K, K + 6 = Q$$

TMS

$$T - 7 = M, M + 6 = S$$

Hence, OHM is the correct answer.

Q84 Text Solution:

The given equation is:

$$63 \times 9 \div 3 - 3 \times 24 + 22 \div 11 + 9 = ?$$

BODMAS table,

B	कोष्ठक (Bracket)
O	का (Of) या घातांक (Order)
D	भाग (Division)
M	गुणा (Multiplication)
A	योग (Addition)
S	अन्तर (Subtraction)

After interchanging the sign the new equation

$$\text{becomes } 63 \times 9 \div 3 - 3 \times 24 + 22 \div 11 + 9 = ?$$

$$63 + 9 - 3 \div 3 + 24 \times 22 - 11 \times 9 = ?$$

Now from the BODMAS rule,

$$63 + 9 - 3 \div 3 + 24 \times 22 - 11 \times 9 = ?$$

$$63 + 9 - 1 + 24 \times 22 - 11 \times 9 = ?$$

$$63 + 9 - 1 + 528 - 99 = ?$$

$$63 + 9 - 1 + 528 - 99 = ?$$

$$600 - 100 = ?$$

$$? = 500$$

Hence, 500 is the correct answer.

Q85 Text Solution:

According to the given information, draw a diagram:

Distance from point B to Point A = $(5 - 2) = 3\text{ km}$.

Now he need to travel 3 km north direction to reach at point A.

Hence, 3 km north is the correct answer.

Q86 Text Solution:

According to the given statement, the possible venn diagram is as:

Now from the conclusion,

Conclusions (I): Some pencils are crayons.

→ False [It is not a definite conclusion.]

Conclusions (II): Some erasers are pencils. →

True [It is a definite conclusion.]

Hence, Only conclusion (II) follows is the correct answer.

Q87 Text Solution:

The given equation is:

$$9 + 5 \div 130 - 10 \times 22 = ?$$

BODMAS table,

B	कोष्ठक (Bracket)
O	का (Of) या घातांक (Order)
D	भाग (Division)
M	गुणा (Multiplication)
A	योग (Addition)
S	अन्तर (Subtraction)

Given equation:

$$9 + 5 \div 130 - 10 \times 22 = ?$$

Now, if '+' and '÷' and '-' and 'x' are interchanged, then:

$$\Rightarrow 9 \div 5 + 130 \times 10 - 22 = ?$$

$$\Rightarrow 1.8 + 1300 - 22 = ?$$

$$\Rightarrow 1301.8 - 22 = ?$$

$$\Rightarrow 1279.8$$

Hence, 1279.8 is the correct answer.

Q88 Text Solution:

The given series is:

58, 60, 65, 73, 84, ?

Here, the logic is as follows

Hence, 98 is the correct answer.

Q89 Text Solution:

Here, the logic is as follows

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

ITM : LSO

and,

SSV : VRX

Similarly,

TNN : WMP

Hence, TNN : WMP is the correct answer.

Q90 Text Solution:

According to the given information,

Only two boxes are placed below W.

Only one box is placed above Y.

Only one box is placed between Y and U.

T is placed immediately above X.

D is placed at some position below V.

V
Y
D
U
W
T
X

As we can see from final arrangement, there are Four boxes are placed between V and T.
Hence, Four is the correct answer.

Q91 Text Solution:

Here, the same logic is followed in all option except option(A)

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

Let's see from option

A RU-PS	B UX-SW
R U	U X
-2 -2	-2 -1
↓ ↓	↓ ↓
P S	S W
C MP-KO	D PS-NR
M P	P S
-2 -1	-2 -1
↓ ↓	↓ ↓
K O	N R

Hence, RU-PS is the correct answer.

Q92 Text Solution:

Here, the logic is as follows:

1	2	3	4	5	6	7	8	9	10	11	12	13
A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N
26	25	24	23	22	21	20	19	18	17	16	15	14

CSL : FPG

C	S	L
+3	-3	-5
↓	↓	↓
F	P	G

and,

KGX : NDS

K	G	X
+3	-3	-5
↓	↓	↓
N	D	S

Similarly,

The same logic is followed in option(D)

DJF: GGA

D	J	F
+3	-3	-5
↓	↓	↓
G	G	A

Hence, DJF: GGA is the correct answer.

Q93 Text Solution:

According to the statement, the possible venn diagram is as:

Now from the conclusion,

Distance from P to A = $(6 - 3) = 3$ km.

Now he need to travel 3 km in north direction to reach at point A.

Hence, 3 km, north is the correct answer.

Q100 Text Solution:

Representation is:

Symbol in Diagram	Meaning
- / O	Female
+ / □	Male
=	Married Couple
—	Siblings
	Difference Of Generation

The symbol means:

$A+B$ means 'A is the sister of B',

$A-B$ means 'A is the brother of B',

$A \times B$ means 'A is the wife of B', and

$A \div B$ means 'A is the father of B'.

$+$ → Sister

$-$ → Brother

$\times$ → Wife

$\div$ → Father

The given equation is:

$F-H \times L \div O+Y$

Family trees:

As we can see, from family trees F is the mother brother of Y.

Hence, Mother's brother is the correct answer.
