

Reasoning

- Q1** B is 7th from the left end. If B is shifted five places to the right, then B will be at the extreme right. How many persons are there in the row?
 (A) 18 (B) 16
 (C) 20 (D) 12

- Q2** Refer to the following letter, number, symbol series and answer the question.
 (Left) B \$ 6 & X G R & # N * M 8 J U O T Q 2 L
 (Right)
 If all the symbols are dropped from the series, then how many numbers will be immediately preceded by a vowel letter and followed by a consonant letter?
 (A) 0 (B) 1
 (C) 3 (D) 2

- Q3** Select the pair of letter-clusters which follows the same pattern as that followed by the two sets of pair of letter-clusters given below. Both pairs of letter-clusters follow the same pattern.
 EKM : DIJ
 LPT : KNQ
 (A) ABC : XYZ (B) PWZ : OUW
 (C) PJQ : NHO (D) JMR : LOT

- Q4** If 'Cook' is called 'Butler', 'Butler' is called 'Manager', 'Manager' is called 'Teacher', 'Teacher' is called 'Clerk' and 'Clerk' is called 'Principal', who will teach in a class?
 (A) Teacher (B) Clerk
 (C) Butler (D) Cook

- Q5** A boy walks 15 m north, turns right and walks 20 m. Again, he turns right and walks 15 m. Finally, he turns to his left and moves 20 m. What is the distance now from his original position?
 (A) 40 m (B) 45 m
 (C) 46 m (D) 60 m

Q6

Which of the numbers (not digits) should be interchanged in the given equation to make it mathematically correct?

$$4 + 6 \times 3 - 5 \div 2 = 16$$

- (A) 5 and 6 (B) 4 and 6
 (C) 2 and 3 (D) 5 and 3

- Q7** Refer to the following number series and answer the question.
 (Left) 2 5 4 3 7 8 6 7 9 4 3 7 8 6 2 3 4 8 9 4 8 7 6
 4 3 7 2 8 9 7 5 3 2 4 5 9 (Right)
 If all the even numbers are dropped from the series, which of the following will be sixth from the left?
 (A) 5 (B) 7
 (C) 3 (D) 9

- Q8** Refer to the following number series and answer the question.
 (Left) 2 5 4 3 7 8 6 7 9 4 3 7 8 6 2 3 4 8 9 4 8 7 6
 4 3 7 2 8 9 7 5 3 2 4 5 9 (Right)
 How many such odd numbers are there that are immediately preceded by an even number and also immediately followed by an even number?
 (Consider counting from left to right only)
 (A) Seven (B) Five
 (C) Four (D) Six

- Q9** Which of the following terms will replace the question mark (?) in the given series?
 MAF, PCG, SEH, ?, YIJ
 (A) UFI (B) RHI
 (C) WHI (D) VGI

- Q10** Study the given arrangement of letters, symbols and numbers and answer the question that follows.
 (Left)
 A 8 & \$ 4 Y & 6 # @ 9 U Y 3 % L 6 & K 9 (I
 & P V 4 B & % # U Y 8 \$ #
 Which of the following will be fourth to the right

of the sixth from the left end of the arrangement?

- (A) P (B) 9
(C) # (D) @

- Q11** Seven friends, Anmol, Bhawna, Komal, Diksha, Ekta, Falak and Gopi, are sitting in a row facing north (but not necessarily in the same order). Falak is sitting to the immediate right of Ekta. Ekta is sitting fourth of the right to Gopi. Komal is an immediate neighbour of Bhawna and Diksha. The person who is sitting third to the left of Diksha is at one of the extreme ends. Who among the following is an immediate neighbour of Gopi and Komal?
- (A) Falak (B) Bhawna
(C) Diksha (D) Ekta

- Q12** In the following diagram, Rectangle represents men, Triangle represents educated. Circle represents urban and Square represents government employees:

Which one of the following represents Men who are only urban?

- (A) 12 (B) 14
(C) 11 (D) 5

- Q13** In a certain code language,
' $A + B$ ' means ' A is the mother of B ';
' $A - B$ ' means ' A is the brother of B ';
' $A \times B$ ' means ' A is the wife of B ' and
' $A \div B$ ' means ' A is the father of B '.
Based on the above, how is 4 related to 1 if ' $4 \times 3 - 2 - 1$ ' ?
(A) Mother

- (B) Father's sister
(C) Sister
(D) Brother's wife

- Q14** Five persons, P, Q, R, S and T travelled in different months of the same year viz. January, February, March, April and May. P travelled in February. Only one person travelled between P and R. Only three people travelled between S and Q. Q travelled in a month after R. Who among them travelled in January?

- (A) T (B) Q
(C) R (D) S

- Q15** In this question, a group of letters is coded using letters/symbols as per the table given below, and the conditions that follow. The correct combination of codes following the conditions is your answer.

Letters/Symbols	O	E	R	L	A	V	&	\$	@
Codes	7	6	1	4	8	2	3	5	9

Condition 1: If a word starts with a vowel but ends with a consonant then codes for first and last letter to be reversed.

Condition 2: If there are more than two vowels in a word, then first vowel is to be coded as 1, second vowel as 2 and so on

Condition 3: If a word starts with a consonant and also ends with a consonant then vowels are to be coded after coding all the consonants.

What is the code for "ALOEVEA"?

- (A) 84762618 (B) 14232415
(C) 14762618 (D) 84232615

- Q16** Each of the six students, Pavan, Vinay, Reshma, Sunayana, Tarun and Unmukth, has an engineering entrance exam on a different day of a week, starting from Monday and ending on Saturday of the same week, but not necessarily in the same order. Reshma has the exam on Tuesday. Only one student has the exam between Pavan and Reshma. Vinay has the exam on the day immediately after Pavan. None of them have the exam before Unmukth. Sunayana has the exam on the day immediately after

Reshma.

On which day does Tarun have the exam?

- (A) Thursday (B) Friday
(C) Wednesday (D) Saturday

Q17 Five friends Pooja, Bhawna, Charu, Geeta and Hema are sitting around a circular table facing towards the centre. Charu is not the neighbour of Bhawna. Bhawna is second to the left of Hema. Geeta is the neighbour of Bhawna and Hema. Who is sitting to the immediate left of Pooja?

- (A) Charu (B) Bhawna
(C) Geeta (D) Hema

Q18 Which of the following letter-clusters should replace # and % so that the pattern and relationship followed between the letter-cluster pair on the left side of :: is the same as that on the right side of ::?

: XTQ :: MRF : %

- (A) # = ROM, % = SWJ
(B) # = RNM, % = SWJ
(C) # = ROM, % = SWK
(D) # = QSM, % = SWJ

Q19 A statement is given, followed by four conclusions given in the options. Find out which conclusion is true based on the given statement.

Statement : $H = W \geq F \geq S \geq T > Y$

- (A) $Y < S$ (B) $T \geq F$
(C) $H < F$ (D) $W < T$

Q20 Refer to the following number series and answer the question.

72963739773973221339373939

How many 3s are there that are immediately preceded by 7 and immediately followed by 9 ?

- (A) Two (B) Four
(C) Five (D) Three

Q21 K, L, M, N, O, P, Q and R are sitting around a square table facing the center of the table. Some of them are sitting at the corners while some are sitting at the exact center of the sides. R sits second to the right of Q. Q sits in one of the corners. M sits third to the left of N. M does not

sit in any of the corners. O is the immediate neighbour of Q and R. K is not the neighbour of N. L sits third to the left of R.

How many people sit between K and Q, when counted from the right of K ?

- (A) Two (B) One
(C) Three (D) Four

Q22 Select the option that is related to the third number in the same way as the second number is related to the first number.

7: 53 :: 9: ?

- (A) 99 (B) 101
(C) 112 (D) 85

Q23 Six students Dhiraj, Mohan, Lokesh, Param, Rohan and Suresh are sitting around a circular table, facing the centre (but not necessarily in the same order). Rohan is sitting second to the right of Suresh. Param is sitting third to the right of Rohan. Param is an immediate neighbour of both Lokesh and Suresh. Mohan and Lokesh are immediate neighbours. Who is the immediate neighbour of both Dhiraj and Mohan?

- (A) Param (B) Suresh
(C) Lokesh (D) Rohan

Q24 FI29 is related to TW49 in a certain way. In the same way, LO38 is related to ZC58. To which of the following is RU65 related, following the same logic?

- (A) FE85 (B) IF58
(C) EF58 (D) FI85

Q25 In the below series, how many numbers are completely divisible by the number on the right? 563248889266588343

- (A) 5 (B) 4
(C) 3 (D) 6

Q26 Which letter-cluster will replace the question mark (?) to complete the given series?

DRBZ, ABKX, ?, UVCT, RFLR

- (A) YDMC (B) YDBE
(C) XUIV (D) XLTV

Q27 By interchanging the given two numbers, which of the following equations will be correct?

7 and 4

I. $7 \times 8 + 4 - 9 \div 3 = 30$

II. $9 + 4 \times 8 \div 2 - 7 = 33$

(A) Neither I nor II

(B) Only II

(C) Both I and II

(D) Only I

Q28 In the following question, select the missing number from the given series.

0, 1, 5, 14, 30, ?

(A) 55

(B) 57

(C) 66

(D) 69

Q29 P, Q, R, S, T, U and V live on seven different floors of the same building. The lowermost floor in the building is numbered 1, the floor above it is numbered 2, and so on till the topmost floor is numbered 7. U lives on the top floor. Only two persons live between T and Q. Q is on floor number 3. V lives on the floor immediately above P's floor. S lives on the floor immediately above R's floor. Q lives on the floor immediately below R's floor. Who lives on floor number 6 ?

(A) V

(B) R

(C) T

(D) S

Q30 If 1 is added to each odd digit and 2 is subtracted from each even digit in the number 5613743658, which of the following digits will be second from the left?

(A) 6

(B) 4

(C) 2

(D) 3

Q31 Which two signs should be interchanged in the following equation to make it correct?

$$87 \times 24 \div 12 - 16 + 14 = 176$$

(A) – and +

(B) $\times$ and +

(C) $\div$ and +

(D) $\times$ and $\div$

Q32 A certain number of people are sitting in a row, facing north. D sits fourth to the right of A. B sits

third to the right of D. C sits fifth to the left of A. There are only two persons between B and E. If no other person is sitting in the row, what is the total number of persons seated?

(A) 9

(B) 14

(C) 16

(D) 11

Q33 In this question, a statement is followed by two conclusions. Which of the two conclusions is/are true with respect to the statement?

Statement: $N < L > J < K > I = H \leq G$

Conclusions:

I. $J = G$

II. $K > H$

(A) Both conclusions I and II are true

(B) Neither conclusion I nor II is true

(C) Only conclusion I is true

(D) Only conclusion II is true

Q34 Three of the following four letter-clusters are alike in a certain way and thus form a group. Which letter-cluster does NOT belong to that group?

(Note: The odd one out is not based on the number of consonants/vowels or their position in the letter cluster.)

(A) MNQL

(B) EFHD

(C) VWZU

(D) OPSN

Q35 Eight friends are sitting in 2 rows facing each other. A is sitting opposite to D and is a neighbour of B and E. H and C are sitting at the right-most corners and E and F are sitting at the left-most corners of their respective rows. If G is sitting next to F, then who is sitting opposite to B ?

(A) H

(B) F

(C) G

(D) C

Q36 Two statements are given, followed by conclusions numbered 1 and 2. Assuming the statements to be true, even if they seem to be at variance with commonly known facts, decide which of the conclusions logically follow(s) from the statements.

Statements:

1. Some mammals are animals.
2. All animals are birds.

Conclusions:

1. All birds are animals.
 2. Some mammals are birds.
- (A) Only conclusion 2 follows
(B) Only conclusion 1 follows
(C) Neither conclusion 1 nor 2 follows
(D) Both conclusions 1 and 2 follow

Q37 There are **3 basketball players** in each stream – **Commerce, Science, and Arts.**

P, Q, and R are from **Commerce.**

L, M, and N are from **Science.**

G, H, and I are from **Arts.**

A team of **4 basketball players** is to be selected for a tournament with the following conditions:

- (i) There must be at least **one player from each stream.**
- (ii) **L will not go with M or N.**
- (iii) **P and R will always go together.**
- (iv) **H and I will always go together.**

Which of the following combinations of players is a possible selection for the tournament?

- (A) P, R, L, and G (B) P, M, N, and G
(C) Q, M, G, and H (D) None of these

Q38 Amsterdam is located to South of Barcelona. Munich is to the West of Amsterdam. Detroit is to the East of Munich. Toronto is to the South of Detroit and to the South-East of Barcelona. What is the position of Amsterdam with respect to Detroit? (All positions are arranged in GRID pattern)

- (A) West (B) East
(C) South (D) North

Q39 If in the word **APPRECIATE**, each consonant is replaced by the next letter in the English alphabet and then all the letters are arranged in reverse alphabetically, which letter will be 5th from the right?

- (A) E (B) I
(C) Q (D) S

Q40 Three of the following four are alike in a certain way and thus form a group. Which is the one that does NOT belong to that group? The odd one out is not based on the number of consonants/vowels or their position in the letter cluster

- (A) DHK (B) BFJ
(C) EIM (D) IMQ

Q41 In the following diagram, Rectangle represents men, Triangle represents educated, Circle represents urban and Square represents government employees:

Which one of the following represents a man who is urban as well as government employee?

- (A) 6 (B) 13
(C) 10 (D) 7

Q42 Seven friends Rekha, Bharti, Shilpi, Jai, Tarun, Ravi, and Nausheen have their houses on seven different floors of the same building. The lowermost floor in the building is numbered 1, the floor above it, number 2 and so on till the topmost floor is numbered 7. Five people live between the floors where Jai and Rekha live. There are two floors between Tarun's and Ravi's house. Tarun lives on one of the floors below Ravi's floor. Ravi's house is not at the top floor. Nausheen's house is just above Tarun's house. Only two people live between Nausheen's and Jai's house. Only two people are above Bharti's house. Who among the following lives on floor number 4?

- (A) Jai (B) Nausheen
(C) Tarun (D) Bharti

- Q43** In this question, a group of numbers/symbols is coded using letters as per the table given below and the conditions which follow. The correct combination of codes following the conditions is your answer.

Number/Symbol	5	6	8	3	%	#	7
Codes	U	S	C	K	D	T	A

Conditions:

- (i) If the first element is an odd number and the last element is an even number, the codes for these two (the first and the last elements) are to be interchanged.
- (ii) If the second element is a symbol and the fifth element is an even number, the codes for these two (the second and the fifth elements) are to be interchanged.
- (iii) If the third element is a number and the fourth element is a symbol, both these elements (the third and the fourth elements) are to be coded as W.

Question : 5 # % 67 # 38

- (A) C A D S T T K U
(B) C T D S A T K U
(C) C T W W A T K U
(D) U T D S A T K C
- Q44** 'PSQ' means 'P is to the north of Q'.
'P&Q' means 'P is to the east of Q'.
'P*Q' means 'Q is to the west of P'.
'P%Q' means 'Q is to the south of P'.
'P@QR' means 'P stands exactly in the middle of horizontal line QR'.
'P!QR' means 'P stands exactly in the middle of vertical line QR'.
Note: 'P6mSQ' means 'P is 6 m to the north of Q' and so on.
Find the shortest distance between G and C in the following expression.
C12mSS5m*G3m&J6m%K! JT
(A) 12 m (B) 10 m
(C) 15 m (D) 13 m
- Q45** If 2 is added to each odd digit and 1 is subtracted from each even digit in the number 5317846 ,

what will be the sum of the digits which are second from the left and second from the right, in the number thus formed?

- (A) 12 (B) 11
(C) 10 (D) 8

- Q46** Sonia is facing East She turns 90° in the Anticlockwise direction, then 180° in the anticlockwise direction and then she turns in 45° degree in right direction. Which direction is She facing now ?
(A) South-West (B) South-East
(C) South (D) East
- Q47** Select the number from among the given options that can replace the question mark (?) in the following series.
23, 34, 45, 56, 67, ?
(A) 79 (B) 76
(C) 77 (D) 78
- Q48** In a certain code language, 'GRAPES' is written as 'EPYNCQ' and 'ROSE' is written as 'PMQC'. How will 'SAGE' be written in that language?
(A) QYCE (B) CYEQ
(C) QEYC (D) QYEC
- Q49** If the english alphabetical sequence is reversed, then which letter will be 5th to the left of M?
(A) S (B) R
(C) Q (D) H
- Q50** Each of the six professors of the same department, Jayanth, Kiran, Lasya, Mythili, Nischal, and Omprakash, has their classes on six different days of the week, starting from Monday and ending on Saturday of the same week, but not necessarily in the same order. Only two professors have classes before Mythili's class. Jayanth has the class on Tuesday, and Omprakash has the class on Saturday. Only one professor has the class after Kiran's class. The class of Nischal is not on any of the days between the classes of Kiran and Mythili. Who among the following has the class on Monday?

(A) Lasya

(B) Nischal

(C) Mythili

(D) Kiran

Hints & Solutions

Note: scan the QR code to watch video solution

Q1 Text Solution:

The initial position of B.

B's position after shifting:

Now we can see that there are a total of 12 people in the row.

Hence, 12 is the correct answer.

Q2 Text Solution:

Given,

(Left) B \$ 6 & X G R & # N * M 8 J U O T Q 2 L

(Right)

After dropping all the symbols, the new series becomes:

(Left) B 6 X G R N M 8 J U O T Q 2 L (Right)

We can see, there is only one number which is immediately preceded by a Vowel letter and also immediately followed by a Consonant letter.

Hence, 1 is the correct answer.

Q3 Text Solution:

Alphabet	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabet	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The pattern is as follows:

• EKM : DIJ

$E - 1 = D$

$K - 2 = I$

$M - 3 = J$

• LPT : KNQ

$L - 1 = K$

$P - 2 = N$

$T - 3 = Q$

Similarly,

• Option:- PWZ : OUW

$P - 1 = O$

$W - 2 = U$

$Z - 3 = W$

Hence, "PWZ : OUW" is the correct answer.

Q4 Text Solution:

According to the question,

'Cook' → 'Butler',

'Butler' → 'Manager',

'Manager' → 'Teacher',

'Teacher' → 'Clerk' and

'Clerk' → 'Principal',

As we know that the Teacher teaches in a class and teacher is called 'Clerk'.

Hence, **Clerk** is the correct answer.

Q5 Text Solution:

According to the given information draw a diagram,

Final distance between Original position and final position = $(20 + 20) = 40\text{m}$

Hence, **40 m** is the correct answer.

Q6 Text Solution:

Given equation :

$$4 + 6 \times 3 - 5 \div 2 = 16$$

BODMAS rule:

B	कोष्ठक (Bracket)
O	का (Of) या घातांक (Order)
D	भाग (Division)
M	गुणा (Multiplication)
A	योग (Addition)
S	अन्तर (Subtraction)

Let's check each option :

- 5 and 6

$$4 + 5 \times 3 - 6 \div 2 = 16$$

$$4 + 15 - 3 = 16$$

$$19 - 3 = 16$$

$$16 = 16$$

- 4 and 6

$$6 + 4 \times 3 - 5 \div 2 = 16$$

$$6 + 12 - \frac{5}{2} = 16$$

$$12 + 24 - 5 = 16 \times 2$$

$$36 - 5 = 32$$

$$31 \neq 32$$

- 2 and 3

$$4 + 6 \times 2 - 5 \div 3 = 16$$

$$4 + 12 - \frac{5}{3} = 16$$

$$12 + 36 - 5 = 16 \times 3$$

$$48 - 5 = 48$$

$$43 \neq 48$$

- 5 and 3

$$4 + 6 \times 5 - 3 \div 2 = 16$$

$$4 + 30 - \frac{3}{2} = 16$$

$$8 + 60 - 3 = 16 \times 2$$

$$68 - 3 = 32$$

$$65 \neq 32$$

Hence, 5 and 6 is the correct answer.

Q7 Text Solution:

Given series is,

(Left) 2 5 4 3 7 8 6 7 9 4 3 7 8 6 2 3 4 8 9 4 8 7 6

4 3 7 2 8 9 7 5 3 2 4 5 9 (Right)

As per the question, after dropping the even numbers, the above series will reduce to,
(Left) 5 3 7 7 9 3 7 3 9 7 3 7 9 7 5 3 5 9 (Right)
Therefore, the sixth element from the left is,
(Left) 5 3 7 7 9 **3** 7 3 9 7 3 7 9 7 5 3 5 9 (Right)
Hence, 3 is the correct answer.

Q8 Text Solution:

Given series is-

(Left) 2 5 4 3 7 8 6 7 9 4 3 7 8 6 2 3 4 8 9 4 8 7 6
4 3 7 2 8 9 7 5 3 2 4 5 9 (Right)

Now, we take a look at the odd numbers which satisfy the given condition that is, immediately preceded by an even number and also

immediately followed by an even number -

(Left) **2 5 4** / 3 7 8 6 7 9 4 3 7 8 6 **2 3 4** / **8 9 4** / **8 7 6** 4 3 7 2 8 9 7 5 3 2 4 5 9 (Right)

Odd numbers that satisfy the given condition are given in bold.

Therefore, we can see that there are four such odd numbers which satisfy the given conditions.

Hence, Four is the correct answer.

Q9 Text Solution:

Alphabet	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabet	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The given letter series is:

MAF, PCG, SEH, ?, YIJ

Here the logic is as follows:

Hence, VGI is the correct answer.

Q10 Text Solution:

Sixth from the left end of the arrangement is Y.

(Left)

A 8 & \$ 4 **Y** & 6 # @ 9 U Y 3 % L 6 & K 9

& P V 4 B & % # U Y 8 \$ #

(Right)

Fourth to the right of the sixth from the left end of the arrangement is @.

(Left)

A 8 & \$ 4 Y & 6 # @ 9 U Y 3 % L 6 & K 9
& P V 4 B & % # U Y 8 \$ #

(Right)

Hence, '@' is the correct answer.

Q11 Text Solution:

The seating arrangement is as follows:

So, Bhawna is the immediate neighbour of Gopi and Komal.

Hence, Bhawna is the correct answer.

Q12 Text Solution:

Given:

Rectangle represents men

Triangle represents educated

Circle represents urban

Square represents government employees

Venn diagram is:

Shaded portion represents number of men who are only urban.

Therefore we can say that number of men who are only urban are 12.

Hence, 12 is the correct answer.

Video Solution:

Q13 Text Solution:

Representation is:

Symbol	Meaning
○	Female
□	Male
≡	Married
—	Siblings
	Difference of a Generation

The given equation is:

$$4 \times 3 - 2 - 1$$

Family tree:

As we can see from the family tree, 4 is related to 1 as a Brother's wife.

Hence, Brother's wife is the correct answer.

Q14 Text Solution:

The arrangement is as follows:

Travel month	Person
January	S
February	P
March	T
April	R
May	Q

So, S travelled in January.

Hence, S is the correct answer.

Q15 Text Solution:

We have to find code of 'ALOEVEA'

Here Condition 2 will be valid, If there are more than two vowels in a word, then first vowel is to be coded as 1, second vowel as 2 and so on

ALOEVEA (Before coded)

14232415 (After coded)

Hence, **14232415** is the correct answer.

Q16 Text Solution:

The schedule is as follows:

Day	Person having exam
Monday	Unmukht
Tuesday	Reshma
Wednesday	Sunayana
Thursday	Pavan
Friday	Vinay
Saturday	Tarun

So, Tarun has the exam on Saturday.

Hence, **Saturday** is the correct answer.

Q17 Text Solution:

According to the given information the final arrangement is as:

We can see from final arrangement Charu is sitting to the immediate left of Pooja.

Hence, Charu is the correct answer.

Q18 Text Solution:

Alphabet	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabet	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

It is given that,

: XTQ :: MRF : %

The pattern followed here is:

From Option A,

= ROM, % = SWJ

On substituting the values # and % as per the question,

ROM : XTQ :: MRF : SWJ

• ROM : XTQ

$R + 6 = X$

$O + 5 = T$

$M + 4 = Q$

Similarly,

• MRF : SWJ

$M + 6 = S$

$R + 5 = W$

$F + 4 = J$

Hence, # = ROM, % = SWJ is the correct answer.

Q19 Text Solution:

Given statement is:

$H = W \geq F \geq S \geq T > Y$

Concept:

Among , > and $\geq$, > is preferred .

Among $>$ and $<$, the situation is a tie, and no sign is preferred.

Among $<$ and $\leq$, $<$ is preferred.

Among $>$ and $=$, $>$ is preferred.

Among $<$ and $=$, $<$ is preferred.

Among $\geq$ and $=$, $\geq$ is preferred.

Among $\leq$ and $=$, $\leq$ is preferred.

Let's see from option

$Y < S$

$H = W \geq F \geq S \geq T > Y$ [Here we can see direct relation between S and Y]

$Y < S \rightarrow \text{True}$

There is no need to check other options.

Hence, **$Y < S$** is the correct answer.

Q20 Text Solution:

Given series:

72963739773973221339373939

3s which are immediately preceded by 7 and immediately followed by 9:

72963739773973221339373939

Hence, **Three** is the correct answer.

Q21 Text Solution:

The seating arrangement is as follows:

- Three people sit between K and Q , when we count from the right of K .

Hence, **"Three"** is the correct answer.

Q22 Text Solution:

Logic : $(\text{First number})^2 + 4 = \text{Second number}$

- $7 : 53$

$$= 7^2 + 4$$

$$= 49 + 4$$

$$= 53$$

Similarly,

- $9 : ?$

$$9^2 + 4 = ?$$

$$81 + 4 = ?$$

$$? = 85$$

So, "9" is related to "85".

Hence, **"85"** is the correct answer.

Q23 Text Solution:

According to the given information, the final seating arrangement is as follows:

So, we can see that Rohan is the immediate neighbour of both Dhiraj and Mohan.

Hence, Rohan is the correct answer.

Q24 Text Solution:

Alphabet	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabet	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The pattern is as follows:

$$\begin{array}{ccc}
 \text{F} & \text{I} & 29 \\
 +14 & +14 & +20 \\
 \hline
 \text{T} & \text{W} & 49
 \end{array}
 \quad \& \quad
 \begin{array}{ccc}
 \text{L} & \text{O} & 38 \\
 +14 & +14 & +20 \\
 \hline
 \text{Z} & \text{C} & 58
 \end{array}$$

Similarly,

$$\begin{array}{ccc}
 \text{R} & \text{U} & 65 \\
 +14 & +14 & +20 \\
 \hline
 \text{F} & \text{I} & 85
 \end{array}$$

Hence, FI85 is the correct answer.

Q25 Text Solution:

Given series is: 563248889266588343

Number on the right of the series is 3

563248889266588343

Pairs are : 63, 88, 88, 66, 88

We can see, total 5 numbers are there which is completely divisible by the number on right.

Hence, **5** is the correct answer.

Q26 Text Solution:

Alphabet	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabet	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The logic here is that the first letters are decreased by -3, the second letters increased by +10, the third letters increased by +9, and the fourth letters decreased by -2.

D (4) - 3 = A (1) - 3 = **X** (24) - 3 = U (21) - 3 = R (18)

R (18) + 10 = B (2) + 10 = **L** (12) + 10 = V (22) + 10 = F (6)

B (2) + 9 = K (11) + 9 = **T** (20) + 9 = C (3) + 9 = L (12)

Z (26) - 2 = X (24) - 2 = **V** (22) - 2 = T (20) - 2 = R (18)

Hence, XLTV is the correct answer.

Q27 Text Solution:

Given expressions:

I. $7 \times 8 + 4 - 9 \div 3 = 30$

II. $9 + 4 \times 8 \div 2 - 7 = 33$

BODMAS rule:

B	कोष्ठक (Bracket)
O	का (Of) या घातांक (Order)
D	भाग (Division)
M	गुणा (Multiplication)
A	योग (Addition)
S	अन्तर (Subtraction)

After interchanging the given two numbers (7 and 4) let's check the given expressions:

I. $7 \times 8 + 4 - 9 \div 3 = 30$

$4 \times 8 + 7 - 9 \div 3 = 30$

$32 + 7 - 3 = 30$

$39 - 3 = 30$

36 $\neq$ 30 (Incorrect)

II. $9 + 4 \times 8 \div 2 - 7 = 33$

$9 + 7 \times 8 \div 2 - 4 = 33$

$9 + 7 \times 4 - 4 = 33$

$9 + 28 - 4 = 33$

$37 - 4 = 33$

33 = 33 (Correct)

So, only II is correct.

Hence, the correct answer is 'Only II'.

Q28 Text Solution:

Given series is:

0, 1, 5, 14, 30, ?

Here the logic is as follows:

Hence, 55 is the correct answer.

Q29 Text Solution:

According to the given information the final arrangement is as:

7	U
6	T
5	S
4	R
3	Q
2	V
1	P

T lives on floor number 6.

Hence, "T" is the correct answer.

Q30 Text Solution:

According to the question,

5	6	1	3	7	4	3	6	5	8
+1	-2	+1	+1	+1	-2	+1	-2	+1	-2
↓	↓	↓	↓	↓	↓	↓	↓	↓	↓
6	4	2	4	8	2	4	4	6	6

4 is second from the left.

Hence, 4 is the correct answer.

Q31 Text Solution:

Given equation:

$$87 \times 24 \div 12 - 16 + 14 = 176$$

B	कोष्ठक (Bracket)
O	का (Of) या घातांक (Order)
D	भाग (Division)
M	गुणा (Multiplication)
A	योग (Addition)
S	अन्तर (Subtraction)

- Option A : - and +

$$87 \times 24 \div 12 + 16 - 14 = 176$$

$$87 \times 2 + 16 - 14 = 176$$

$$174 + 16 - 14 = 176$$

$$190 - 14 = 176$$

$$176 = 176$$

- Option B : $\times$ and +

$$87 + 24 \div 12 - 16 \times 14 = 176$$

$$87 + 2 - 224 = 176$$

$$89 - 224 = 176$$

$$-135 \neq 176$$

- Option C : $\div$ and +

$$87 \times 24 + 12 - 16 \div 14 = 176$$

$$2088 + 12 - 8/7 = 176$$

$$2098.8 \neq 176$$

- Option D : $\times$ and $\div$

$$87 \div 24 \times 12 - 16 + 14 = 176$$

$$43.5 - 16 + 14 = 176$$

$$41.5 \neq 176$$

Hence, the correct answer is - and +.

Q32 Text Solution:

According to the given information the final arrangement is as:

We can see, total number of person is 16.

Hence, **16** is the correct answer.

Q33 Text Solution:

According to the question :

We have been given a statement in which alphabets are related to each other. We have to find out which of the given conclusions is true.

Concept :

Among $>$ and $\geq$, $>$ is preferred.

Among $>$ and $<$, the situation is a tie, and no sign is preferred.

Among $<$ and $\leq$, $<$ is preferred.

Among $>$ and $=$, $>$ is preferred.

Among $<$ and $=$, $<$ is preferred.

Among $\geq$ and $=$, $\geq$ is preferred.

Among $\leq$ and $=$, $\leq$ is preferred.

Given statement:

$$N < L > J < K > I = H \leq G$$

Checking each given conclusion :

$$I. J = G$$

It is NOT correct (as , $J < K > I = H \leq G$, there is no definite relation between J and G, as the effect is cancelled due to presence of both $<$ and $>$)

II. $K > H$ (as , $K > I = H$ is given in the statement, thus clear relation between K and H , where $K > H$ is definite)

So, only conclusion II follows.

Hence, **“Only conclusion II is true ”** is the correct answer.

Q34 Text Solution:

Alphabet	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabet	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

Here, the logic is as follows

Logic: Except for option(B), all options follow the same logic.

Let's see from the options:

As we can see, EFHD is the odd one out.

Hence, EFHD is the correct answer.

Q35 Text Solution:

Here, in the given question we have to find out who is sitting opposite to B.

According to the given instructions:

- Eight friends are sitting in 2 rows facing each other. A is sitting opposite to D and is a neighbour of B and E.
- H and C are sitting at the right-most corners.
- E and F are sitting at the left-most corners of their respective rows.
- G is sitting next to F.

After analyzing these points, we get:

So, G is sitting opposite to B.

Hence, G is the correct answer,

Q36 Text Solution:

According to the statement, the possible Venn diagram is as:

Now, from the conclusion:

1. All birds are animals. [False $\rightarrow$ It is not a definite conclusion as we can see from venn diagram all animals are birds but we can not say that all birds will be animal.]
2. Some mammals are birds. [True $\rightarrow$ It is a definite conclusion we can clearly see from venn diagram some mammals are birds will be followed.]

Hence, Only conclusion 2 follows is the correct answer.

Q37 Text Solution:

Given Conditions:

1. **At least one player from each stream** (Commerce, Science, and Arts).
2. **L will not go with M or N** (i.e., L must be alone from Science).
3. **P and R will always go together.** (i.e., if P is selected, R must be selected too).
4. **H and I will always go together.** (i.e., if H is selected, I must be selected too).

Checking Each Option:**Option A: P, R, L, and G**

- **Commerce:** P, R ✓
- **Science:** L ✓
- **Arts:** G ✓

(i) There must be at least one player from each stream. ✓

(ii) L will not go with M or N. ✓

(iii) P and R will always go together. ✓

(iv) H and I will always go together. ✓ (It is written that H and I will go together, but it is not mentioned anywhere that H and I will always go. Here G is present from Arts stream, so this condition is not violated)

So, this combination of players is a possible selection for the tournament.

Option B: P, M, N, and G

- **Commerce:** P ✓
- **Science:** M, N ✓
- **Arts:** G ✓

(i) There must be at least one player from each stream. ✓

(ii) L will not go with M or N. ✓ (L is not here, so condition two is followed anyways, as L is not present with M or N)

(iii) P and R will always go together. ✗ (P must be with R, but R is not here, so this condition is violated)

(iv) H and I will always go together. (None of them is present)

Option C: Q, M, G, and H

- **Commerce:** Q ✓
- **Science:** M ✓
- **Arts:** G, H ✓

(i) There must be at least one player from each stream. ✓

(ii) L will not go with M or N. ✓ (L is not present here, so condition 2 is followed anyways, as only M is present from Science stream.)

(iii) P and R will always go together. ✓ (Both P and R are not present here, only Q is present

from Commerce)

(iv) H and I will always go together. ✗ (H must be with I, but I is missing)

So, we can see that (P, R, L and G) combination is possible.

Hence, P, R, L, and G is the correct answer.

Q38 Text Solution:

According to the given information draw a diagram

We can see Amsterdam is in the 'West' direction from Detroit.

Hence, **West** is the correct answer.

Q39 Text Solution:

Here, in the given question, we have to find out which letter will be 5th from the right after arrangement according to the given condition in the question.

Given word:- APPRECIATE

According to the given instructions:

First, replace consonants with the next letter:

AQQSEIDIAE

Now, arranged in reverse alphabetical order:

USQQIEEDAA

So, E is the 5th from the right.

Hence, E is the correct answer.

Q40 Text Solution:

Alphabet	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabet	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

Pattern is as follows:

We can clearly see that option-A is different from the other options

Hence, Option-A is the correct answer.

Video Solution:

Q41 Text Solution:

- Rectangle represents Men
- Triangle represents Educated
- Circle represents Urban
- Square represents Government Employees

We can see, from above venn diagram the number of man who is urban as well as government employee is 6.

Hence, "6" is the correct answer.

Q42 Text Solution:

According to the statement the final arrangement is as:

7	Jai
6	Ravi
5	Bharti
4	Nausheen
3	Tarun
2	Shilpi
1	Rekha

We can see from final arrangement Nausheen lives on floor number 4.

Hence, **Nausheen** is the correct answer.

Q43 Text Solution:

Given,

5 # % 6 7 # 3 8

Here, condition (i) is satisfied because the first element is an odd number and the last element is an even number, so the codes for 5 and 8 will be interchanged.

5 # % 6 7 # 3 8

CTDSATKU

Hence, **CTDSATKU** is the correct answer.

Q44 Text Solution:

Given equation:

C12mSS5m*G3m&J6m%K! JT

Decoding the equation, we get:

- C12mSS = C is 12m to the north of S.
- S5m*G = G is 5m to the west of S.
- G3m&J = G is 3m to the east of J.
- J6m%K = K is 6m to the south of J.
- K!JT = K stands exactly in the middle of the vertical line JT.

Directions on paper are represented as :

Now, according to the question:

In $\triangle CSG$,

$$CS^2 + GS^2 = CG^2 \text{ (Pythagoras theorem)}$$

$$(12)^2 + (5)^2 = CG^2$$

$$144 + 25 = CG^2$$

$$CG = 13 \text{ m}$$

Hence, Option D is the correct answer.

Q45 Text Solution:

Given number:

5317846

After adding 2 to each odd digit, we get:

7539846

After subtracting 1 from each even digit, we get:

7539735

Second digit from the left = 5

Second digit from the right = 3

Second digit from the left + Second digit from the right = $5 + 3 = 8$

Hence, 8 is the correct answer.

Q46 Text Solution:

According to the given information in the question draw a diagram,

Now we can see, Sonia is facing in South - West direction.

Hence, South - West is the correct answer.

Video Solution:**Q47 Text Solution:**

Given series is:

23, 34, 45, 56, 67, ?

Here the logic is as follows:

Hence, "78" is the correct answer.

Q48 Text Solution:

Alphabet	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabet	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The pattern followed is:

- 'GRAPES' is written as 'EPYNCQ'

$$G - 2 = E$$

$$R - 2 = P$$

$$A - 2 = Y$$

$$P - 2 = N$$

$$E - 2 = C$$

$$S - 2 = Q$$

And

- 'ROSE' is written as 'PMQC'

$$R - 2 = P$$

$$O - 2 = M$$

$$S - 2 = Q$$

$$E - 2 = C$$

Similarly,

- 'SAGE' will be written as?

$$S - 2 = Q$$

$$A - 2 = Y$$

$$G - 2 = E$$

$$E - 2 = C$$

Hence, QYEC is the correct answer.

Q49 Text Solution:

If we reverse the alphabet series, it will look like:
ZYXWVUTSRQPONMLKJIHGFEDCBA

5th letter to the left of M will be R.

ZYXWVUTSRQPONMLKJIHGFEDCBA

Hence, 'R' will be the correct answer.

Q50 Text Solution:

The schedule is as follows:

Day	Person having class
Monday	Nischal
Tuesday	Jayanth
Wednesday	Mythili
Thursday	Lasya
Friday	Kiran
Saturday	Omprakash

So, Nischal has the class on Monday.

Hence, **Nischal** is the correct answer.

[Android App](#) | [iOS App](#) | [PW Website](#)
